Private Network Services 2023

Kyung Mun  |  MOBILE EXPERTS  |  August 2023
# TABLE OF CONTENTS

1. **EXECUTIVE SUMMARY** 7

2. **MARKET DRIVERS OF PRIVATE CELLULAR NETWORKS** 9
   - Post-pandemic realignment – geopolitics and supply chain 9
   - Digital transformation of industries 9
   - Business-critical use cases driving private network adoption 11

3. **STATE OF THE MARKET** 14
   - Telecom and enterprise network convergence for IT and OT 15
   - Buying a private network is a strategic decision 16
   - Private network adoption curve - where are we? 17
   - Private cellular network solution offerings 18
   - Multiple stakeholders, differing motivations, and co-opetition 20
   - Private LTE vs. private 5G? 21
   - Timeline of industrial private 5G 22
   - Spectrum for private cellular network 23
   - Private cellular networks and edge computing 26

4. **IT AND OT CONSUMPTION MODELS** 27
   - Upfront CAPEX 28
   - As-a-service OPEX 28
   - Hybrid CAPEX/OPEX 28
   - Hypothetical TCO analysis of CAPEX vs. OPEX model 29

5. **PRIVATE CELLULAR NETWORK SERVICES** 30
   - Professional services 30
   - Installation and integration services 30
   - Managed services 31

6. **SWOT ANALYSIS** 32
   - Telecom vendors 33
   - IT hardware vendors 34
   - System integrators / managed service providers 35
   - Network operators (CSPs) 36
   - Hyperscale cloud providers 37

7. **PRIVATE CELLULAR NETWORK SERVICES MARKET FORECAST** 38
   - Private cellular network services revenue by segmentation 38
   - Managed services revenue via network slicing 41
   - Private cellular network services revenue by industry 42
   - Private cellular network services revenue by stakeholder 45
   - Private network services revenue by cellular technology 47
   - Private cellular network services revenue by region 48
# TABLE OF CONTENTS

PRIVATE CELL, EQUIPMENT, SERVICES MARKET BY CONSUMPTION MODEL 51

## COMPANY PROFILES 54

- 450CONNECT 54
- ABB 54
- AIRSPAN 54
- AMAZON WEB SERVICES (AWS) 54
- AMBRA 55
- AMDOCS 55
- AMEREN 55
- ANTERIX 55
- AT&T 56
- BETACOM 56
- BLACK BOX 56
- BOINGO 56
- BOLDYN NETWORKS 57
- BOSCH 57
- CAMBIUM NETWORKS 57
- CASA SYSTEMS 57
- CELLNEX 58
- CELONA 58
- CHINA MOBILE 58
- CHINA TELECOM 59
- CHINA UNICOM 59
- CISCO SYSTEMS 59
- COMCAST 59
- COMMSCOPE 60
- CORNING 60
- COX 60
- CROWN CASTLE 60
- CTS 61
- DELL 61
- DEUTSCHE TELEKOM 61
- DIGITAL BRIDGE (EXTENET) 61
- DRUID SOFTWARE 62
- ELISA 62
- ERICSSON 62
- EXPETO 63
- FEDERATED WIRELESS 63
- FUJITSU 63
- GLOBALSTAR 63
- GENERAL ELECTRIC 64

METHODOLOGY

To create estimates and forecasts for the Private Network Services market, Mobile Experts leveraged our other two market forecasts, i.e., 2023 Industrial Private Cellular and 2023 Enterprise Private Cellular market reports. Further, Mobile Experts relies on direct input from more than 24 industry sources, spanning tier-1 mobile operators, cable operators, managed service providers, system integrators, cellular infrastructure, and device vendors, tier-1 IT networking and server vendors, and software solutions providers that contribute to the overall analysis to give a detailed global view of the market. Mobile Experts has also spoken with more than 20 other companies in related business areas for cellular IoT business areas.

Mobile Experts built a “top-down” forecast based on direct input from mobile operators, vendors, system integrators, and managed service providers. Then, Mobile Experts built a “bottom-up” forecast through discussions with OEMs, automation companies, software developers, and module suppliers in the supply chain. Financial disclosures, investor presentations, and earnings transcripts were used to provide a high-level view of the various industry sectors and to understand the existing private wireless market.

To determine the end device market for Private LTE, we relied on our own Cellular IoT 2022 report. Note that during the course of developing our Cellular IoT forecasts, we interviewed at least 15 enterprises in each vertical market, resulting in a strong understanding of business models and growth drivers in these vertical markets:

- Automotive IoT
- Asset Tracking
- Industrial IoT (including manufacturing, transportation, oil and gas, and mining)
- Healthcare and fitness devices
- Building Automation
- Smart Meters/utilities
- URLLC Devices
