

Student Universal Wellness Screener

Make Collecting Student Data Easy!

Assess student social, behavior and academic needs, screen, and progress monitor in a building/district

The EES Student Universal Wellness Screener enables district and building administrators, including counselors, to identify students' social, emotional, sense of belonging, academic, safety needs and target diagnostic follow up. The screener provides districts and buildings with interactive dashboards that make team collaboration and action planning efficient.

Act on data instead of creating surveys and reporting

Spend time with students - not gathering data and generating reports.

Focus on current reality and build foundations

The low impact survey provides an efficient way to understand the current perceptions and wellness of students today, as well as academic information throughout the school year.

Easy to interpret, interactive dashboards

- Refine data further by adjusting the thresholds for each category based on your school or district needs
- Track students for screener completion and receive daily updates
- View progress reports by School, Grade Level and Teacher/Counselor
- Identify students who have requested help in nine areas
- Assess flagged students with a Staff/Parent quick follow-up screener (11 questions)
- Integrate your screener data with Homeroom and School Data Solutions - contact us for a cost estimate

Actionable Information for school boards, superintendents, principals, counselors, and teachers.
