

Educational Effectiveness Survey™ Leadership 360

SLP: School Leader Paradigm
PSEL: Professional Standards for Educational Leaders

The Center for Educational Effectiveness

For Principals and
Principal Interns

Groundbreaking Adaptive Survey that Grows with You

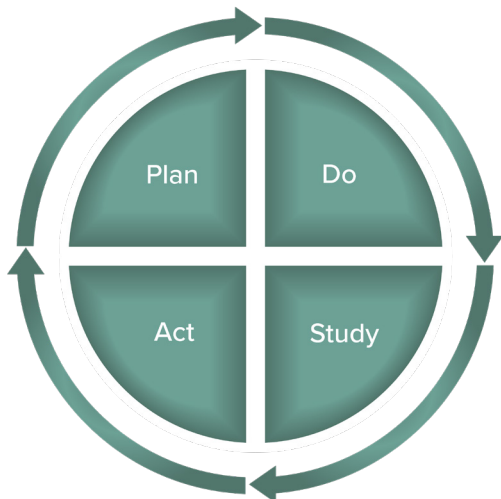

The EES Leadership 360 Survey™ is a comprehensive online tool that adapts to a leader's self-reported effectiveness and feedback from peers, colleagues, supervisors and staff. The survey questions follow a progressive path of leadership development and the result report shows the relative strengths of leaders against SLP (School Leader Paradigm) intelligences and PSEL (Professional Standards for Educational Leaders) standards.

The Data

Reporting is an aggregate of individual reflections about your demonstrated leadership. These are formative, perceptual data—not evaluative.

Successful Leaders...

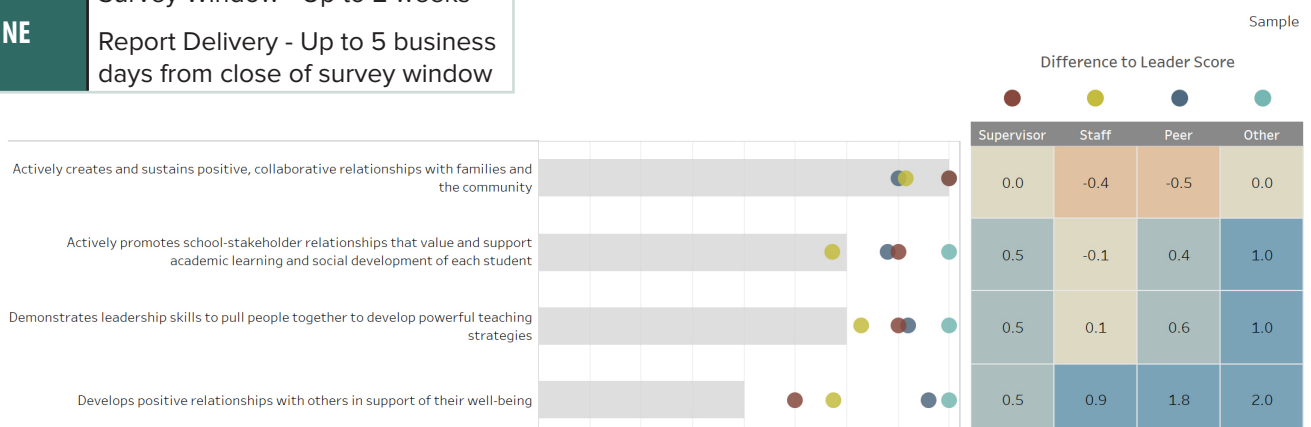

- Understand complex learning systems within their organization
- Inspire others to be effective
- Reflect constantly on their own learning
- Support the learning of students and adults
- Create a positive, hope-filled climate and culture
- Model the use of data
- Place students' academic success at the center of decision-making

Cycle of Inquiry

| | |
|--------------|--|
| PLAN | Analyze self-perceptions in relation to others taking the survey. |
| DO | Develop goals using the formative data. Follow the User Guide prompts and check out the additional resources for goal setting. |
| STUDY | Determine milestone achievements and/or adjust the plan. |
| ACT | Repeat the survey administration. Review the longitudinal data for areas of mastery and continuous improvement. |

| | |
|----------------------|--|
| SURVEY LENGTH | Less than 10 minutes |
| TIMELINE | Survey Window - Up to 2 weeks Report Delivery - Up to 5 business days from close of survey window |
