

H2flow Controls, Inc.
3545 Silica Road, Unit F
Sylvania, OH 43560

Industrial Line Card

Progress Through Innovation™

Our solutions have been helping customers Control, Protect & Measure their machines and processes for over 20 years.

Product Lines

MEASURE

AcuFlow mass area flow meters

- Available for 1.5" - 8" diameters
- Accurate within $\pm 1.9\%$ of displayed value
- Digital upgrade available

FaraMag FM750 mag meters

- Available for 0.5" - 120" diameters
- Accurate within $\pm 0.5\%$ of displayed value
- Offers unique features vs competition

PROTECT

ProcessDefender Load Monitors

- Over- & underload protection
- User protection against arc flash
- Certified to UL & CE

TSA-Plus Motor Start & Protect

- Motor load monitoring with torque ramping functionality
- Protection of up to four processes on the same pump

CONTROL

FDU AC Drives

- Unmatched control and performance for variable torque applications
- Available for 3 - 2,500 Amps
- Unique Load Curve Monitoring

VFX AC Drives

- Unmatched control and performance for constant torque applications
- Available for 3 - 2,500 Amps
- Unique Load Curve Monitoring

VS10/30 AC Drives

- Compact drive for 1.1 - 16.5 Amp applications
- Sensorless vector control
- Phase and current protection

TSA Soft Starts

- Built-in intelligent shunt-rated bypass contactor
- Torque ramps with current limit
- Motor load monitoring with autose

EMX Heat Exchanger Drives

- Switched Reluctance technology
- Full control over a wide speed range
- Models for rotors up to 18 feet
