## Ceres Community Project can help

Ceres is a non-profit delivering meals designed to support you when your health is compromised.

- Our standard delivery is seven prepared meals each week. Depending on your situation and diagnosis you may qualify for additional meals or a grocery bag of simple-to-prepare items.
- We provide food for the whole family if needed.
- Meals are free of charge for clients with incomes at or below \$27,000 annually per person, and available on a sliding scale basis for those with higher incomes.
- Meals are medically tailored to address the nutritional requirements of most illnesses.

At Ceres Community Project we create health for people, communities and the planet through love, healing food, and empowering the next generation. We train teen volunteers to grow and cook healthy whole foods. They gain job and leadership skills, and discover the joy of giving to others.

We connect people of all ages and from all walks of life to one another. Together we are all creating a healthy, more caring community.
