^{*}Note: As you may have observed, mandatory spending at each agency is reported very differently between the White House budget request and Congressional spending bills. There are also differences in how the mandatory funding is reported from agency to agency within the documents. This chart reflects how the lines as they are reported in documents and thus may not always be direct comparisons. If you see any changes that should be made in the way these funding levels are displayed, please reach out to Lindsey (nhammes@dc-crd.com). We defer to our members' expertise on their programs of interest!
