

THE DEFENDERS OF JUSTICE

VOTE JUSTICE FOR ALL
ON JUNE 7TH

LEARN WHY JUDICIAL
RACES MATTER TO YOU

thedefendersofjustice2022.com

We need care, not cages.

Our judicial bench is dominated by former prosecutors and well-connected private attorneys. We have the largest jail system in the world and the largest unsheltered homeless population in the country because our answer to problems like homelessness and mental health issues have been jail instead of services. The Defenders of Justice understand how to utilize the options available to prioritize care and rehabilitation instead of punishment.

**Judicial offices are county wide
races so you can vote for all of
these candidates.**

VOTE FOR THE DEFENDERS OF JUSTICE

Judicial offices are county wide races so you can vote for all of these candidates.

A public defender has never been elected judge in Los Angeles County and only 38.7% of Trial Court judges in the LA Superior Courts are women. Our judicial bench is dominated by former prosecutors and well-connected private attorneys. But judges don't just serve in criminal courts. They also serve in civil, family, juvenile, mental health, and traffic courts.

We need care, not cages. We have the largest jail system in the world and the largest unsheltered homeless population in the country because our answer to problems like homelessness and mental health issues have been jail instead of services. The Defenders of Justice understand how to utilize the options available to prioritize care and rehabilitation instead of punishment.
