

Jorge M. C. Marques graduated in chemistry from the University of Coimbra in 1991, and received his PhD in theoretical chemistry from the same university in 1995. He is Assistant Professor at the Department of Chemistry of the University of Coimbra since 2000. He is Associate Editor of the journal *Frontiers in Chemistry* (section Theoretical and Computational Chemistry). His major scientific interests are related to the development of efficient global optimization algorithms to be applied in physical chemistry, with particular emphasis in the study of microsolvation, properties of clusters, biomolecules and colloidal systems.
