Find out when and how acupuncture is covered by your health plan

What is acupuncture?
Acupuncture is a health practice that involves using needles placed under the skin to stimulate points in the body and ease symptoms. Studies suggest that acupuncture may help ease chronic pain and certain other conditions and is a reasonable option for people with chronic pain to consider.¹

How does Independence cover acupuncture?

Is acupuncture right for me?
To determine whether you could benefit from acupuncture:

• Talk with your doctor. Acupuncture should only be used to complement your doctor’s care, not replace it. Your doctor can help you decide if acupuncture is right for your symptoms.
• Check covered conditions. Review Medical Policy #12.00.01 at ibx.com/medpolicy to determine the conditions for which acupuncture is considered medically necessary.
• Find the right practitioner. Ask your doctor for a recommendation, or visit ibx.com/findadoctor. Use as much care as you would in choosing a traditional health care professional.

² For PPO members, the 18 acupuncture visits are combined in- and out-of-network.

Acupuncture is covered for limited conditions. For details on covered conditions, please reference medical policy #12.00.01, which you can find at ibx.com/medpolicy.
