TRUSSARDI

CASA

La collezione Trussardi Casa trae ispirazione dal dinamismo metropolitano di Milano nel segno della contemporaneità. Uno stile senza tempo che parla alle nuove generazioni tradotto in soluzioni d'arredo dall'eleganza naturale, in bilico tra tradizione e modernità, sempre fedele ai codici di Trussardi.

Il designer Carlo Colombo tratteggia un progetto di interior definito da linee geometriche essenziali e calibrate capace di raccontare quel senso di familiarità caro alla Maison milanese. Un percorso che si articola all'interno di spazi definiti da atmosfere rilassate: colorazioni naturali a contrasto con accenni di cromie più intense, fanno da sfondo a una collezione che coniuga design e fashion.

Armoniche combinazioni di colori e materiali sottolineano lo studio degli elementi. Come nella moda, le tonalità riprendono suggestioni legate alla terra con colorazioni naturali sabbia, nocciola, tortora impreziosite dal ruggine, marrone e antracite. Arricchiscono la palette gradazioni di arancio e avio dalle sfumature soft e polverose.

Una collezione che esalta l'eccellenza di produzioni Made in Italy: la meticolosa cura dei dettagli e la scrupolosa scelta dei materiali si riflette nella scelta dei tessuti, pregiati e dalla trama strutturata, che si accostano a morbidi pellami lavorati con maestria.

Metalli finitura canna di fucile, bronzo spazzolato e ottone lucido si affiancano ad essenze in rovere tinto wengé e superfici in marmo di Carrara, Emperador Dark, Marquina.

The Trussardi Casa collection is inspired by the metropolitan dynamism of Milan expressed with a contemporary approach. A timeless style which speaks to the new generations and which has been translated into furnishing solutions of natural elegance, poised between tradition and modernity, always faithful to Trussardi traditions.

The designer Carlo Colombo has sketched out an interior project defined by essential and calibrated geometric lines capable of recounting the sense of familiarity dear to the Milanese Fashion House. A path which runs inside an exhibition space defined by relaxed atmospheres: natural shades contrasting with hints of more intense colours are the background to a collection which combines fashion and design.

Harmonious combinations of colours and materials underline the study of the pieces. As in fashion, the shades are earthy with natural sand, hazelnut and dove colours enhanced by rust, brown and anthracite. The range is further enriched with shades of orange and aviation blue with soft and dusty nuances.

A collection which highlights the excellence of Made in Italy: the painstaking attention to detail and the careful choice of materials is reflected in the chosen fabrics, precious and with structured textures, combined with soft and skilfully-worked leather.

Gun-metal, brushed bronze and polished brass metal parts are combined with woods in wenge-stained oak and surfaces in Carrara, Emperador Dark, Marquina marbles of typical Italian tradition.

LIVING

DEVEN
