Barovier&Toso

VENEZIA 1295

Time is a strange piece.
It is unrepeatable, relentless,
mysterious yet so present.

An angel, a star, a bell. These three figures form the historical coat of arms of Barovier&Toso. The creative heroism of the family is reflected in the symbols that have stood over and protected its name, for centuries. An identity that bears witness to a noble lineage developed across generations that have guided the glass workshop. The human and professional vicissitudes of Barovier&Toso still unfold in Venice and Murano, where the furnaces were moved to protect the secrets of their art of glassmaking from the prying eyes of merchants and spies.

Murano constitutes an extraordinary context because it is here that the principles of sustainability have been embedded in history, in the awareness that the creative process is intrinsically natural. Where fire, sand, together with the water of the Venetian lagoon, became the material that Barovier&Toso nurtured into the art of Venetian crystal. The company has blown and shaped glass with the hands of local artisans since 1295. Its glow and transparency are the results of an exclusive formula passed on through the centuries. The production respects nature, reducing environmental impact without altering the state of a consolidated, time-tested process, allowing total safety for the craftsmen involved.

Un angelo, una stella, una campana. Queste tre figure compongono l'antica araldica di Barovier&Toso. L'eroismo creativo di una famiglia si rispecchia nello stemma che sovrasta e protegge da secoli il suo nome. Un'identità che testimonia il nobile lignaggio guadagnato sul campo della storia dalle diverse generazioni che hanno guidato la fabbrica. Tra Venezia e l'isola di Murano, dove le fornaci furono trasferite per proteggere un sapere unico al mondo dagli occhi indiscreti di mercanti e spie, si svolgono ancora le vicende umane e professionali di Barovier&Toso. Il contesto muranese è uno straordinario laboratorio perché qui la storia ha saputo abbracciare la causa della sostenibilità poiché il processo creativo è naturale per statuto. Dove il fuoco e la sabbia insieme all'acqua della laguna veneziana diventavano materia, Barovier&Toso ha messo a punto il cristallo veneziano. Qui l'azienda lo produce dal 1295. Soffiato e lavorato a mano da maestranze locali. La sua lucentezza e la sua trasparenza non sono garantite da agenti chimici aggiuntivi come il piombo o l'arsenico. Sono invece il frutto di una formula tramandata da secoli. Essa rispetta la natura, riduce l'impatto ambientale senza intaccare l'integrità di un processo artigianale consolidato. Il tutto avviene nella totale sicurezza per le maestranze coinvolte.

Transparency, purity, and glow are the result of a combination of steps in which the human factor is the driving force. Experimentation and knowledge have been handed down over time, in an approach that has always made human brilliance its central focus. The visions of creative artistry and the skills of the master glassmakers in its implementation are combined in a long, complex process that comes to life in the glassworks. This remote, harsh, extreme environment is governed by the laws of nature and the rules of good taste.

Trasparenza, pulizia, lucentezza sono l'esito di una combinazione di risultati dove il fattore umano è l'elemento scatenante. La sperimentazione e la conoscenza sono state tramandate nel tempo con un approccio che ha sempre avuto il genio dell'uomo al centro. L'uomo creativo che detiene la visione dell'arte e il maestro vetraio che lo assiste con la competenza della tecnica sono la condizione duale di un processo lungo e complesso che prende vita in fornace. Questo teatro remoto, estremo e ruvido, è retto dalle leggi della natura e normato dalle regole del buon gusto.

The works of Barovier&Toso are a synergy of its crafted components. The artistry and craftsmanship and the slow pace of the evolution of each piece convey a history of elegance that finds eternal expression. The works of Barovier&Toso are creations made to prevail against the transience of fashion. They are works whose durability transcends the exasperated speed of consumption. Their material appeal is the expression of an unwavering gesture, captured in a perfect moment to last for many years. They testify to the value of time, because they suspend the observer from the rush of everyday life, expand the moment, set a position in space.

The obsession for perfection, together with the experience of the *maestri* has been the path to achieve excellence. The everyday practice of glass making has made it possible to protect the secrets of workmanship from the threats of the modern age and the corrosion of cultural habits. Inside Barovier&Toso, the transfer of knowledge is nurtured and protected by the generational turnover due to the uniqueness of the medium itself. Experimentation balances with the understanding of tradition.

Le opere di Barovier&Toso sono un abaco di segni scolpiti. L'insieme delle parti trattiene la complessità di una lavorazione, sprigiona una foresta di volumi visibili tanto nell'essenzialità delle sue parti quanto nella circolarità del suo insieme. L'artigianalità della sua fattura e la lentezza con cui viene composta annunciano una storia di eleganza che si esprimerà per sempre. Quelle di Barovier&Toso sono opere da contemplare, contro la caducità delle mode. Sono opere la cui durezza combatte l'exasperata velocità dei consumi.

La matericità che esprimono è un gesto caparbio, una fotografia che non conosce stagionalità. Testimoniano il valore del tempo perché sospendono l'osservatore dalla fretta del quotidiano, dilatano il momento, fissano una posizione nello spazio.

L'ossessione per la perfezione e l'esperienza sono state le strade battute per raggiungere l'eccellenza. La pratica quotidiana dell'arte è servita a custodire un segreto manifatturiero dalle minacce del tempo moderno, dalla corrosione di certe abitudini culturali, dalle consuetudini turistiche che provocano l'ecosistema dell'Isola di Murano. In Barovier&Toso il trasferimento dei saperi è stato alimentato e protetto dal cambio generazionale nell'unicità della materia lavorata. La sperimentazione si è bilanciata con la conoscenza della tradizione.

The intangible heritage of this company no longer lies in the continuation of a dynasty, but also in the legitimacy of history, in the reliability of preserved context, in the awards of museums that host the works of Barovier&Toso in their collections. Today the company thrives on the integrity of an ongoing tradition that arises every morning in the tireless repetition of a production cycle, the same cycle that has involved over 20 generations of men and women. Here time is always contemporary because it incorporates the culture of making things by hand. Here nature is in the items it shapes, in the elusive process that transforms them, in the landscape that surrounds them, in the mystery that preserves them in the charm of a tradition that repeats itself in the representation of art and genius.

Il patrimonio immateriale di questa azienda non risiede più soltanto nel volgere di una dinastia ma nella legittimazione della storia, nell'affidabilità di un contesto preservato, nei riconoscimenti di istituzioni museali che ospitano Barovier&Toso in collezione. Oggi si vive l'integrità di una tradizione tramandata che ogni mattina sorge nell'instancabile ripetizione di un ciclo produttivo. Lo stesso che ha coinvolto più di venti generazioni di uomini e donne. Qui il tempo è contemporaneo da sempre perché sposa la cultura del far bene con le mani. Qui la natura è nelle cose che plasma, nell'inafferrabile processo che le trasforma, nel paesaggio che le circonda, nel mistero che le preserva, nel fascino di una tradizione che si ripete, nella rappresentazione dell'arte e del genio.

Massima espressione delle tecniche muranesi questa collezione in stile Rezzonico fa parte della storia, della cultura e del patrimonio veneziano. Lampadari unici per maestosità, ricchezza di decorazioni e ricercatezza nei dettagli. Ideali per lussuose ambientazioni classiche ma allo stesso tempo capaci di arricchire gli interni più contemporanei grazie al prezioso gioco di contrasti.

As a maximum expression of Murano techniques, this collection in Rezzonico style is part of the history, culture and heritage of Venice. Unique chandeliers in terms of majestic image, refined decorations and remarkable details. Ideal for luxurious classic settings, but also to enhance more contemporary interiors thanks to the elegant effects of contrast.

BISSA BOBA

Angelo Barovier, ispirandosi ad un lampadario veneziano degli archivi di Barovier&Toso, nel 1992 inventa un lampadario scomposto fatto di bracci che, come un serpente incantato, si ergono e si allontanano sinuosamente dal centro. Da qui il nome: "Bissa" è la parola che usano i veneziani per indicare un serpente.

In 1992 Angelo Barovier, inspired by a Venetian chandelier from the archives of Barovier&Toso, invented a remarkable composition of arms that like enchanted snakes rise and sinuously extend from the centre. Hence the name: "bissa" is the word Venetians use to indicate a snake.

CAMPARINO

I numerosissimi disegni di archivio e metodi di lavorazione custoditi con cura e tramandati di generazione in generazione sono una risorsa quasi infinita di idee e rappresentano l'eredità di una storia secolare che ha pochi eguali nel mondo. Come il *rostrato*, una complessa lavorazione artigianale inventata da Ercole Barovier nel 1938 che consiste nell'estrudere dal vetro una serie di punte che gli conferiscono un aspetto "preistorico". Da quei disegni e da quelle tecniche ha preso ispirazione Camparino: una lampada da tavolo elegante e raffinata che racchiude passato e presente in un unico elemento.

The extensive design archives and carefully preserved techniques handed down from generation to generation represent an almost infinite resource: a legacy matched by few others, encompassing centuries of tradition. One such example is "*rostrato*", a complex technique invented by Ercole Barovier in 1938, which consists of extruding a series of points from the glass that give it a "prehistoric" look. These drawings and techniques form the inspiration for Camparino: an elegant and sophisticated table lamp that brings together past and present in a single compact piece.

COLIMAÇON

design Marc Sadler

Come sculture mobili questi lampadari grazie alla cinetica dei bracci consentono di ottenere configurazioni sempre diverse. In antitesi alla staticità del lampadario tradizionale, questi oggetti giocano con il delicato equilibrio tra pesi e dimensioni creando un effetto di estrema lievit  e delicatezza.

As revolving sculptures, thanks to the kinetics of the arms these chandeliers allow to create many different configurations. In contrast to the static character of traditional chandeliers, these objects play with the delicate balance of weights and proportions creating an effect of extreme lightness and delicacy.

CROWN

design Brian Rasmussen

Una collezione che celebra ed esalta uno degli elementi caratterizzanti dei lampadari della tradizione veneziana, il *pastorale*: un piccolo bastone dall'estremità ritorta a spirale caratterizzato dalla lavorazione "rigà menà". Ingrandito a dismisura, appeso al contrario e replicato in serie diventa il protagonista di queste sospensioni dal disegno minimalista e moderno.

A collection that pays tribute and enhances one of the characteristic features of the chandeliers of the Venetian tradition, the *pastorale*: a small rod terminating in a spiral, made with the "rigà menà" technique. Forcefully enlarged, suspended upside-down and replicated in a series, this piece becomes the protagonist of suspension lamps with a modern minimalist design.

DE GAS

Lampadari leggeri ed allungati dal disegno raffinato ed elegante. Spogliati delle tradizionali decorazioni floreali lasciano esposti i delicati bracci e rendono protagonista la luce soffusa donando calore ed atmosfera agli ambienti.

Graceful chandeliers that extend outward in a refined, elegant design. Stripped of the traditional floral decorations, their delicate arms are exposed, making the soft glow become the main feature that adds warmth and atmosphere to spaces.

EXAGON

Composizioni di grande impatto scenografico, costituite da elementi luminosi sapientemente realizzati dai maestri vetrai di Murano. Dischi sottili ed impalpabili in cristallo veneziano che attraverso la luce e la loro moltiplicazione danno vita a progetti, anche su misura, magnifici da ammirare da vicino e da lontano.

Compositions of great theatrical impact, made of luminous elements skilfully created by master glassmakers in Murano. Thin, impalpable disks of Venetian crystal, through light and multiplication, give rise to magnificent designs, also bespoke, that are as enticing at close range as they are from a distance.

HANAMI

Come in un'opera d'arte moderna lo stesso elemento è ripetuto e moltiplicato quasi all'infinito. Una ripetizione seriale di una semplice forma modulare che genera un volume organico ed omogeneo. Ma in realtà ogni singola bolla non è mai perfettamente identica a sé stessa; la soffiatura a bocca e la lavorazione a mano rendono i multipli simili ma mai uguali, rendendo unica ogni composizione.

As in a modern artwork, the same element is repeated and multiplied almost infinitely. The reiteration of a simple modular form generates an organic, homogenous volume. The individual bubbles are never quite the same; the glassblowing technique and handwork make the multiples similar but never equal, making every composition truly unique.

MARRAKECH

L'innovazione può nascere anche da un processo di ricombinazione di conoscenze, competenze, design e valori culturali tradizionali. La collezione è infatti ispirata alle *zellige* (piastrelle marocchine) dove l'elemento esagonale è in cristallo veneziano lavorato con la tecnica della *rugiada* che crea una superficie irregolare con variazioni di tonalità, brillantezza, trasparenza e profondità proprio come nel suo omologo in argilla.

Innovation can spring from a process of recombination of knowledge, expertise, design and traditional cultural values. This collection is in fact inspired by *zellige* (Moroccan tiles), where the hexagonal piece is in Venetian glass crafted with the "rugiada" technique to create an irregular surface with variations of tone, brightness, transparency and depth. Precisely as in its clay counterpart.

NEVADA

Arredare con un lampadario in cristallo veneziano di questa collezione significa donare eleganza e carattere agli ambienti, anche se di stili differenti. L'elemento caratterizzante sono i bracci rettilinei quasi privi di curvature dai quali pendono esili e delicati pendagli a forma di goccia.

Decorating with a chandelier in Venetian crystal from this collection means adding elegance and character to spaces, even when their styles differ. The rectilinear arms, almost without curvature, are the characteristic feature, supporting slender, delicate dewdrop pendants.

PADMA

Il suo nome in sanscrito significa "loto", pianta acquatica dalle antichissime origini, al cui fiore si ispira il progetto. Insolite commistioni generano un suggestivo dialogo tra elementi racchiusi l'uno nell'altro, diversi tra loro per forma, cromia, lavorazione, ma fortemente connessi dal design dell'oggetto. Un diffusore esterno, realizzato con la tecnica dell'incalmo sfumato, un "frutto" racchiuso al suo interno, preziosamente lavorato a coste, ed un elemento finale che completa la composizione richiamando reminiscenze veneziane.

The name means "lotus" in Sanskrit, an aquatic plant of very ancient origin whose flower suggests the image. Unusual mixtures generate an evocative dialogue between parts set into each other, differing in form, hue and workmanship, but closely connected by the design of the object. An external diffuser made with the shaded encalmo technique, a "fruit" nestled inside it with precious ribbing, and a final element that completes the composition, suggesting memories of Venice.

PALLADIANO

Simmetria, ordine, perfezione ed eleganza sono le muse ispiratrici di questa collezione. Un omaggio alla razionalità e all'equilibrio delle opere del Palladio ed ai valori dell'architettura formale classica. Anche la scelta della palette cromatica con i suoi colori pieni, non trasparenti, è una celebrazione della matericità e del volume dell'oggetto che si trasforma quasi, esso stesso, in una piccola architettura.

Symmetry, order, perfection and elegance are the muses behind this collection. A tribute to the rationality and balance of the works of Palladio and the values of formal classical architecture.

The selection of colours, in full, non-transparent hues, is a celebration of the material and volume of the object, which itself is transformed almost into a small work of architecture.

PALMETTE

Una collezione che si distingue per la preziosità delle lavorazioni, rigorosamente realizzate artigianalmente e frutto di una ricerca stilistica che attinge alla storia per darne una interpretazione in chiave contemporanea. Ventagli in foglie di cristallo, sovrapposti a formare due, tre e quattro livelli per una rilettura intrigante dello stile déco.

A collection that stands out for precious workmanship rigorously done by hand, and the result of stylistic research that draws on history, granting it a contemporary interpretation. Fans of crystal leaves, placed to form two, three and four levels, for an intriguing take on Art Deco.

Ricerca nel passato non significa rimanere ancorati a vecchie tecniche e soluzioni, quanto piuttosto fare leva sulla tradizione per creare nuove architetture di prodotto e di processo attraverso l'innovazione. Una collezione che attinge dalla tradizione delle lavorazioni del vetro pieno trasformandole in decorazioni contemporanee.

Exploring the past does not mean getting stuck on old techniques and solutions. Instead, it implies reliance on the tradition to create new architectures of products and processes, through innovation. A collection that draws on the tradition of workmanship on solid glass, transformed into contemporary decoration.

PANDORA

Regala leggerezza ed un aspetto fiabesco agli interni grazie ai bracci in cristallo veneziano che sembrano fluttuare nell'aria. Il suo aspetto simile a quello di una medusa crea divertenti giochi di luce che donano profondità agli ambienti.

Il suo paralume di dimensioni importanti genera un'illuminazione omogenea ed elegante.

Interiors take on a light, fairy-tale image thanks to arms of Venetian crystal that seem to float in the air. The resemblance to a jellyfish suggests playful games of light that add depth to spaces, while the large shade generates uniform, elegant light.

PERSEUS

design Marcel Wanders

Audace operazione di valorizzazione della tradizione muranese, la collezione Perseus è caratterizzata da un gran numero di elementi in vetro che rappresentano quasi un compendio delle tecniche vetrarie studiate e sviluppate da Barovier&Toso nel corso della sua lunga storia, qui reinterpretate, accostate e mescolate in modo sovversivo rispetto ai canoni della classicità.

A daring enhancement of the Murano tradition, the Perseus collection is characterized by a large number of glass elements that represent a compendium of the glassmaking techniques studied and developed by Barovier&Toso in the course of its long history, here reinterpreted, paired, and mixed in a subversive way with respect to the canons of classicism.

PRÉSIDENT

Un lampadario a bracci iconico per antonomasia che mette in risalto la meticolosa eleganza della lavorazione artigianale. Prismi cesellati, pendenti scintillanti e coppette decorate lo rendono un elemento d'arredo davvero unico in cui il cristallo veneziano rivela il suo splendore scultoreo.

An iconic chandelier with arms that proudly displays its painstaking workmanship and elegance. Chiseled prisms, sparkling pendants and decorated cups make this a truly unique decor feature, in which Venetian crystal reveals its sculptural splendour.

ROBIN

Interpretazione moderna dell'archetipo della lanterna. Il disegno è pulito, minimale e rigoroso ma anche immediato: dà vita ad una forma che univocamente ci rammenta la remota foggia e l'antica funzione dell'iconica lampada. Le ali metalliche formano una maglia strutturale che abbraccia il diffusore in vetro opalino che illuminato genera un effetto luminoso caldo e soffuso.

A modern interpretation of the lantern archetype. The design is clean, minimal and rigorous, but also immediate: it generates a form that instantly reminds us of the age-old shape and original function of the iconic lamp. The metal wings form a structure that embraces the diffuser in opaline glass which spreads a warm, and soft glow into the space.

ROSATI

Utilizzare un archivio e un museo come strumenti per dare continuità e per innovare senza perdere di vista i valori della tradizione e le radici storiche è un modo per rendere la memoria davvero immortale e fruibile nelle sue trasformazioni. Questa collezione nasce attingendo ai disegni del prezioso archivio storico di Barovier&Toso rielaborati e riproposti con un design più moderno. Gli elementi decorativi, realizzati con la tecnica del "rostrato", inventata da Ercole Barovier negli anni 30, diventano i protagonisti indiscussi di queste vere e proprie opere d'arte.

Using an archive and a museum as tools to grant continuity and to innovate without losing sight of tradition and historical roots is a way to make memory truly immortal and perceptible in its transformations. This collection takes its cue from drawings, conserved in the precious historical archives of Barovier&Toso, reworked and reformulated with a more modern design. The decorative parts made with the "rostrato" technique, invented by Ercole Barovier in the 1930s, become the clear protagonists of these true works of art.

ROTTERDAM

Bracci curvati verso l'alto, fusto ogivale, rocchetti di cristallo creati artigianalmente utilizzando un brevetto Barovier&Toso: il "rostrato".
Oggetti preziosi, di straordinaria eleganza e raffinatezza capaci di soddisfare un cliente esigente e sofisticato.

Arms curving upward, an oval trunk, crystal spoons created by hand using a Barovier&Toso patent: "rostrato". Precious objects of extraordinary elegance and refinement, capable of satisfying the most demanding and sophisticated customers.

SAINT GERMAIN

design Giorgia Brusemini

Una collezione che parte dal concetto di bidimensionalità allineando i bracci lungo lo stesso asse per dar vita ad oggetti di dimensioni contenute che non perdono tuttavia la poesia e l'incanto di un prodotto interamente realizzato a mano in cristallo veneziano. Elemento distintivo è la sfera realizzata con la tecnica dell'oro sommerso.

A collection that starts with the concept of two dimensions, extending its arms along the same axis to give rise to objects of compact size that do not, however, lose any of their poetry and enchantment. A product made entirely by hand in Venetian crystal, featuring a distinctive sphere made with the "oro sommerso" technique.

SAMURAI

design Angelo Barovier

Angelo Barovier, nel 1966, progettava una base per una lampada da tavolo con costolature che negli anni successivi è stata ripresa, ingigantita, messa sotto sopra e moltiplicata. Oggetto senza tempo, che si può inserire nelle case dall'arredamento contemporaneo con facilità, e abbinare ai vari stili per creare un ambiente raffinato.

In 1966 Angelo Barovier designed a base for a table lamp with ribbing that in the years to follow has been revisited, enlarged, overturned and multiplied. A timeless creation which can be inserted in a contemporary decor with ease, or combined with various styles to create a sophisticated atmosphere.

SPADE

Collezione ispirata ai fiori e alla natura che si contraddistingue per il suo delicato design a forma di corolla, realizzata con la tecnica della "rugiada" che dona un raffinato effetto ricamato. Le foglie si sovrappongono come a formare dei fiori schiusi, sospesi nell'aria.

A collection with an accent on flowers and nature, which stands out for its delicate design in the form of a corolla, made with the "rugiada" technique to create a refined embroidered look. Leaves overlap to form the image of a blossoming flower, suspended in the air.

SPINN

Le “bamboline” sono un elemento spesso utilizzato nei lampadari della tradizione muranese. Disposte a spirale e illuminate dall’interno, formano un vortice luminoso che decora l’ambiente con disegni e ombre grazie alla tipica lavorazione del vetro detta “a balotòn”.

The “*bambolina*” is a figure often utilized in traditional Murano chandeliers. Grouped in a spiral and lit from within, these pieces form a luminous swirl that enhances the space with patterns and shadows, thanks to the typical “*balotòn*” workmanship.

SWING

L'elemento base che compone Swing è un elegante vetro lavorato "a balotòn" che dona a questa collezione una meravigliosa dinamicità e una stupefacente presenza scenica. Sostenuti da fini cavi di acciaio fissati alla sottile struttura a soffitto, questi elementi compongono figure delicatamente sinuose e ondeggianti sia in forma circolare che in forma libera.

The basic feature of Swing is an elegant piece of crafted glass with the "a balotòn" technique, that gives the collection exceptional dynamism and a striking theatrical presence. Supported by slender steel cables attached to a thin structure on the ceiling, these parts form delicately sinuous and wavering figures, in circular or free-form configurations.

TAIF

Taif nasce nel 1980 per arredare la residenza del Re Saudita nell'omonima città di Taif, da cui il lampadario prende il nome. Angelo Barovier, che studia il progetto, ripensa l'immagine del lampadario della tradizione muranese, preservando il valore del cristallo veneziano e accogliendo nuovi linguaggi. Un incontro di tradizione e creatività, fra memoria e innovazione in cui affiora l'equilibrio compiuto del Classico.

This model was first made in 1980 to furnish the residence of the King of Saudi Arabia in the city of Taif, which gives the lamp its name. Angelo Barovier, who developed the project, revised the image of the traditional Murano chandelier, preserving the allure of Venetian crystal while incorporating new languages.

An encounter between tradition and creativity, memory and innovation, with the perfect poise of a classic.

TANGERI

Sfere riccamente decorate e pastorali abilmente ritorti si alternano in questa collezione che attinge alla tradizione ma il cui disegno, alleggerito e semplificato, ben si adatta sia ad interni di gusto classico che contemporaneo. I paralumi con la finitura interna oro sono perfetti per donare un'atmosfera calda e ricercata.

Richly decorated spheres and gracefully curled pastorals alternate in this collection that draws on the tradition while, lightening and simplifying the design, makes it perfect for both classic and contemporary settings. The shades with an inner gold finish produce a warm, refined atmosphere.

TRIM

Questa collezione attinge dall'archivio delle grandi installazioni realizzate da Barovier&Toso negli anni '60 e '70 attraverso la moltiplicazione e ripetizione di elementi modulari a canne o a poliedri, lisci o arricchiti dalle tradizionali lavorazioni muranesi.

L'elemento esagonale realizzato con l'antica tecnica detta "ghiaccio" genera volumi sferici che perfettamente si integrano nell'architettura degli spazi diventandone quasi un'estensione.

The collection builds on the archive of large installations made by Barovier&Toso in the 1960s and 1970s, multiplying and repeating modular elements, simple or polyhedral, smooth or enhanced by traditional Murano workmanship. The hexagonal tube made with the age-old "ice" technique generates spherical volumes that fit perfectly into the architecture of spaces, almost becoming its extension.

VENEZIA 1295

L'origine di tutto, il compendio di 700 anni di tradizioni tramandate di padre in figlio, oltre le mode e il tempo che scorre: una collezione di lampadari ricca di storia, di dettagli e di emozioni.

Opera perfetta, del buon lavoro fatto con arte, intelligenza, sapienza manuale e conoscenza che rende omaggio alla tecnica del "rostrato", inventata da Ercole Barovier negli anni '30.

The start of it all, the compendium of 700 years of tradition, passed down from father to son, above and beyond passing fashions: a collection of chandeliers full of history, details and emotions. The perfect work, finely crafted with art and intelligence, skill and knowledge, in a tribute to the "rostrato" technique invented by Ercole Barovier in the 1930s.

VERONESE

design Umberto Riva

Un vaso di cristallo attraversato da un raggio di luce nel famoso quadro di Paolo Veronese che rappresenta l'Annunciazione. A questo si ispirano le linee purissime di questo oggetto riletto in chiave moderna e di grande eleganza. Con la sua luce diffusa e avvolgente questa lampada si inserisce indifferentemente sia in ambienti classici che in arredamenti moderni e contemporanei rendendoli unici ed esclusivi.

A crystal vase crossed by a beam of light in the famous painting by Paolo Veronese depicting the Annunciation. This is the image behind the pure lines of an object of consummate elegance, reinterpreted in modern terms. With its diffused, enveloping light the lamp fits perfectly into classic and modern decors bringing them unique, exclusive character.

WINDSOR

Elemento immancabile nell'arredamento classico, il lampadario è oggi sempre più presente in ambienti moderni e contemporanei, come a voler donare calore ed eleganza a quegli interni talvolta troppo minimali ed essenziali. L'elemento stilistico caratterizzante di questa collezione sono i bracci sinuosi ed eleganti, che si dipanano da un corpo centrale snello e slanciato in un gioco visivo di intrecci e si allineano ingegnosamente su uno stesso piano.

An indispensable feature of classic interiors, the chandelier is now also being extensively used in modern and contemporary settings, as a way of bringing warmth and elegance to interiors that might otherwise be too minimal and essential. The stylistic characteristic of this collection is that of the sinuous, graceful arms, which reach out from a slender central body to generate visual interplay and ingeniously align on the same level.
