

THE CURIOUS EYE

created by the Children's Eye Foundation of AAPOS

This book is dedicated to helping all children understand and celebrate the unique way we all see the world.

Proceeds from this book support the Children's Eye Foundation of AAPOS's mission to end preventable vision loss in children. The creation of this special book coincides with the launch of All Children See, the Foundation's direct patient care program to serve children in the US who do not have health insurance.

To learn more about this program and the Foundation's other mission-driven programs, please visit: childrenseyefoundation.org

THE CURIOUS EYE

Created by the Children's Eye Foundation of AAPOS to help screen for color vision deficiency in children.

Illustrated by Ruby Wang

Answer key
in the back!

NICE TO MEET YOU!
I'M CURIOUS, THE EYE.

LET'S GO ON AN ADVENTURE,
YOU AND I.

WE'LL PLAY LOTS OF GAMES
AND LEARN AS WE GO.

WE'LL MEET ALL
MY FRIENDS.

UP HIGH AND
DOWN LOW.

Hello, Mr. Owl,
What do you see?

I see all the creatures
from up in my tree!

Point out all the
birds you see.

HELLO, MRS. SHARK,
WHAT DO YOU SEE?

I SEE ALL THE DOLPHINS
SWIMMING BY ME!

CAN YOU POINT OUT
ALL THE DOLPHINS
IN THE SEA?

HELLO, MR. FOX. WHAT'S IN YOUR VIEW?

I SEE ALL THE BUGS MARCHING ON THROUGH!

SHOW US ALL THE BUGS YOU SEE!

HELLO, MISS BEE,
WHAT DO YOU SEE?

I SEE BUSY BUTTERFLIES
ALL AROUND ME.

POINT OUT THE
BUTTERFLIES YOU SEE.

HELLO,
MR. FROG,

I SEE THE
TOPS OF TURTLES
HIDING FROM ME.

WHAT DO YOU SEE?

POINT OUT ALL THE TURTLES YOU SEE!

HELLO, MISS GIRAFFE,
WHAT DO YOU SPY?

I SEE SILLY MONKEYS
SWINGING ON BY!

HOW MANY MONKEYS CAN YOU SPY?

HELLO, MR. CRAB
WHAT DO YOU SEE?

I SEE MY STARFISH
FRIENDS WAVING AT ME.

POINT OUT ALL THE STARFISH YOU SEE!

WHAT A JOURNEY WE HAD,
JUST YOU AND ME.

WASN'T IT FUN TO
LEARN HOW WE SEE?

AND NEVER FORGET
THE ONE THING THAT'S TRUE,

HOW YOU SEE IS
SPECIAL TO YOU.

Did your child find all the creatures on each page?

The creatures in **blue** will be visible to all children. However, a child with color vision deficiency (CVD) may have trouble seeing some of the **pink** creatures.

RESOURCES

Did you know CVD affects 1 in 12 males in the world?

Children with color vision deficiency (CVD), commonly known as color blindness, see the world in a unique way. This means some children cannot distinguish between certain shades of colors like reds and greens, and yellows and blues.

It's important to find out how a child sees at a young age, because when color vision deficiency is diagnosed early, they can better understand how they see the world.

To learn more about color vision deficiency, and how to find an eye care professional near you, visit thecurioseye.org

SEE YOU LATER!
