# The Far Out

Boston, MA

**"The North Shore-based six-piece was absolutely shot out of a cannon"**

—James Marinaccio, AMP

**THE FAR OUT** is a high-energy funk and soul-pop group from Boston, MA. The six powerhouse musicians engage their audiences with lush vocals and groovy horn lines, supported by the undeniable chemistry of a group of lifelong friends. Their goal is to include audiences in their infectious joy and spread the love of funk and soul music to younger generations. Taking after the likes of Eagles, Earth, Wind & Fire, and Fleetwood Mac...

...The Far Out is stacked with multiple lead singers and songwriters. Their genre is a cohesion of their individual tastes and influences, brought together by a shared aim to entertain and inspire. You'll often catch the group of multi-instrumentalists switching roles during their shows, passing guitars around or joining the horn section between vocal harmonies.
