<th>NEEDS TO CHANGE</th>

<tbody>
<tr>
<td>GBV against women and girls is deeply rooted in social and gendered norms, attitudes and beliefs.</td>
<td>Women and girls in all their diversity experience multiple and intersecting forms of gender-based violence in their lifetime.</td>
</tr>
<tr>
<td>An estimated 736 million women - almost 1 in 3 - have been subjected to intimate partner violence, non-partner sexual violence or both at least once in their life.</td>
<td>Emerging evidence shows that since the outbreak of COVID-19, reports of gender-based violence against women and girls have increased.</td>
</tr>
<tr>
<td>Violence experienced by women and girls is significantly under-reported, only 40 per cent of women who experience violence seek help of any sort and many do not report their experiences to formal mechanism.</td>
<td>Patriarchal backlash against women’s rights and limited political will hinder change.</td>
</tr>
<tr>
<td>Almost 1 in 4 adolescent girls aged 15-19 (24%) have experienced physical and/or sexual violence from an intimate partner or husband at least once in their lifetime.</td>

There is a Gender-Based Violence global emergency.
