- Tailors to each person's size and shape for optimal comfort and functionality.

Jeff is an artist that lost a lot of cognitive ability due to cancer.

"You've inspired him, for that I am very grateful. He's attempting to get back into sketching again."

-Jeff's wife

Stander

PRODUCT DESCRIPTION:

Custom-made for individuals who have difficulty standing stationary for a period of time. The stander allows them to perform tasks with confidence in addition to staying on their feet longer.

Recipients can choose the color of their stander!

BENEFITS OF OUR CUSTOM-MADE STANDERS:

- Improves quality of life through accessibility.
- Increases freedom to partake in everyday activities i.e. brushing teeth, doing dishes, looking out the window, etc.
- Aids in circulation, breathing, and digestion.
- Promotes inclusion and participation.

Jim spends a lot of time sitting and being on his feet requires that he use his arms to grasp a walker. Now, he can be on his feet a few times a day for preparing meals, shaving, and having coffee by the window.

Foot Rest (Ergonomic)

PRODUCT DESCRIPTION:

Custom-made foot rest to achieve proper height and angle, to keep feet centered under desk. Great for individuals who have trouble sitting still by assisting in regulating sensory processing issues (fidgeting).

BENEFITS OF OUR CUSTOM-MADE FOOT RESTS:

- Enhances one's ability to focus.
- Limits distraction.
- Improves classroom environment!

Foot Rest (Balance & Stability)

PRODUCT DESCRIPTION:

Custom-made foot rest to enhance core, balance, & stability. Primarily designed for pre-school aged children who's feet do not make proper contact with the floor.

BENEFITS OF OUR CUSTOM-MADE FOOT RESTS:

- Enhances core, balance, and stability.
- Improves ergonomic positioning.

Seat Inserts

PRODUCT DESCRIPTION:

Custom-made seat inserts for school children from pre-school to high school. Designed to improve ergonomic posture and modify standard school furniture.

BENEFITS:

- Provides appropriate incline for core enhancement and correct posture.

Slant Boards

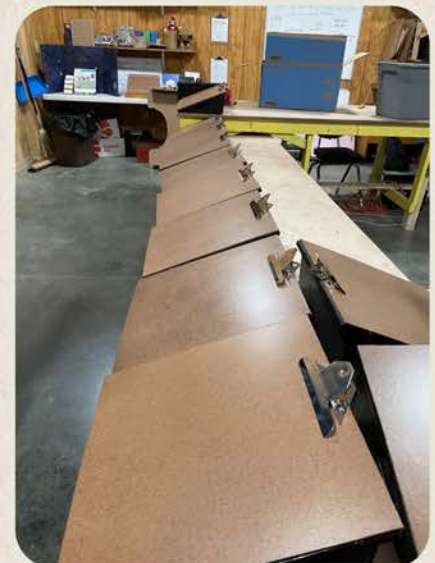

PRODUCT DESCRIPTION:

Custom-made slant boards encourage wrist extension during writing, which allows for increased legibility. Designed for schools.

BENEFITS:

- Increases motor control while writing.

Weighted Boxes

PRODUCT DESCRIPTION:

Weighted boxes are used for physical therapy in various sizes and weights.

BENEFITS OF OUR WEIGHTED BOXES:

- Used to learn proper lifting and carrying techniques.

Rockers

PRODUCT DESCRIPTION:

Sit-down rocker, designed for rhythmic motion. Can be used at a desk rather than an office chair.

Recipients can chose the color of their rocker!

BENEFITS OF OUR ROCKERS:

- Satisfies the elements of all 4 dimensions of comfort; physical, social, cognitive, and emotional.

Add-ons & Extras

All of our products are customized to the needs and wants of the individual recipient. Our add-ons can be retro fit to any of our products or used as stand alone products.

Below is a list of options, but we are happy to take on specific requests to meet your needs!
