WELCOME TO THE MOURNE COLLECTION

The Mourne Collection is an extensive range of fireplace designs, finishes and materials elegantly designed and expertly crafted. We know the right fireplace is a stunning focal point in your home. We're inspired by the magnificent and breathtaking Mourne Mountains.

Spelga Stone (Honed)

The striking grey tones of Spelga Stone provide a beautiful feature in a contemporary home. The shading variation of the stone has a unique and rich character, completed with a honed (matte) finish.

New Carrara (Polished)

The newest addition to the Mourne Collection. New Carrara is a white stone with grey veins running through the stone creating a bold statement for the distinguished home.

Ice White (Polished)

Ice White is a stunning contemporary addition to our range of fireplaces. The striking combination of white stone with a grey speckle creates a bold feature, rich with character.

Ivory Pearl (Polished)

The neutral tones of Ivory Pearl remain a popular choice. Subtle colour variations throughout the stone add to its perpetual charm.

GULLION 54

Ice White

Stove: Mourne Eco Inset 400

Cast Iron: Hamilton Highlighted

Hearth: Honed Granite

MEELBEG 58

Spelga Stone

Fire: Decorative Gas Fire

Cast Iron: Jubilee Highlighted

Hearth: Polished Granite

DUBLIN CORBEL 54

Ivory Pearl

Stove: Hi-Flame Alpha 1

Chamber: Rustic Red Brick

Hearth: Polished Granite

Premium, Contemporary Design

All Mourne Eco stoves have been designed with the environment in mind, are easy to maintain, and constructed to the highest standards.

The premium steel construction of the stove bodywork is completed with the stylish and contemporary cast iron door.

All Mourne stoves have been independently tested in The Netherlands to ensure they meet and exceed all current standards for safety and emissions criteria, including Eco Design criteria.

Smart Construction

The clever design of the Mourne stoves means they are easy to maintain, with all essential components that make up the stove; baffle plates; firebricks; etc, all easily removed without the need for any tools.

Latest Technology

Mourne Eco stoves are packed with all the features needed to heat your room and make it look stunning. All stoves feature: Primary Air along with a Secondary Airwash system to ensure the glass of your stove stays clear, allowing you to enjoy the beautiful flame picture. Mourne Eco Stoves also benefit from a Tertiary Air system to help aid a cleaner burn.

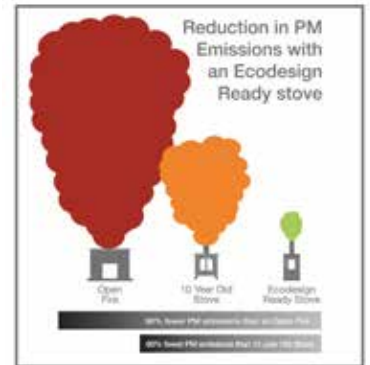

All the Mourne Collection Eco range of stoves are Eco Design ready.

Cleaner Burning

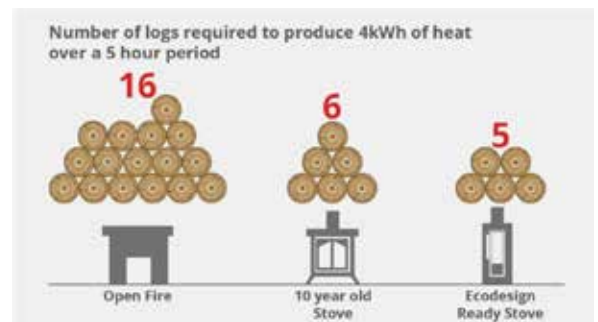

Ecodesign Ready stoves have been engineered to burn wood more completely thus reducing particulate matter (organic particles that come from incomplete combustion of the fuel).

The Mourne Eco stoves feature targeted introduction of combustion air at higher levels in the fire box, reigniting the particles of smoke before they can leave the stove.

More Efficient

As well as greatly reducing the emission of particulate matter, Mourne Eco stoves are also more efficient, reducing the amount of fuel you need to use in the stove, and maximising heat output.

Did you know.....

Each tree absorbs the same amount of carbon dioxide when growing as it releases when burned. So if you use wood as your fuel source in one of our Mourne Eco stoves and source your wood locally from sustainable woodlands the appliance can be close to carbon-neutral.

Be sure to look out for Woodsure's 'Ready to Burn' logo to easily identify firewood that has a moisture content of 20% or less. This not only produces more heat than wet wood but also reduces air particulate matter.

ECO 5 (PORTRAIT)

- **Nominal Output:** 4.6kW
- **Efficiency:** 78.7%
- **Fuel Type:** Multi (wood and smokeless fuels)
- **Flue Outlet:** Top/Rear
- **Flue Diameter:** 125mm
- **Outside Air:** Yes
- **Dimensions:** 545mm (h) x 390mm (w) x 255mm (d)
- **Inc. Log Store:** 750mm (h) x 390mm (w) x 355mm (d)
- **Defra:** Yes (pending)
- **Eco:** Yes
- **ERP Rating:** A

ECO 5 WIDE

- **Nominal Output:** 4.6kW
- **Efficiency:** 75.6%
- **Fuel Type:** Multi (wood and smokeless fuels)
- **Flue Outlet:** Top/Rear
