### Indy MPO Central IN Ride Guide:

## How to Use Pacers Bikeshare

1. Get a bike via the mobile app or at a station kiosk
2. Ride anywhere you want
3. Return bike to any station

Scan QR code to use app

## How to Find Bike Racks in Marion County

1. Search "Bike Parking" or "Bike Rack" in Google Maps
2. Zoom in to the block where your destination is
3. Click "search this area"

## Top Ten Biking Tips

- 1 Pass with Courtesy**  
Pass on the left. Leave ample space when passing pedestrians, especially kids and pets who can often be unpredictable. Let others know you're near by saying "On your left!" or ringing your bell.
- 2 Use Hand Signals**  
Be predictable. Signal as a manner of self-protection and courtesy.
- 3 Negotiate with Drivers**  
Communicate with drivers - signal and make eye contact. Assume they don't see you.
- 4 Use Caution at Intersections**  
Most crashes happen at intersections. Make sure you are visible and prepared to stop. Watch for right-turning drivers who may try to cut you off.

- 5 Don't Get "Doored"**  
Car doors can open unexpectedly. Look for occupants in parked cars. Take extra space in the lane if you need to.
- 6 Ride Predictably**  
Don't weave in and out of parked cars. Hold your line in the lane even if cars are behind you.
- 7 See and Be Seen**  
For safety and courtesy, use lights at night. Between sunrise and sunset, both front and rear lights are required by law.
- 8 Side-by-side is Fine**  
State laws allow for riding up to two abreast in the street. Be courteous, but be willing to take up space when it's the safest option.

- 9 Distrust Drivers**  
Don't die defending your right of way. When it comes to biking, it's better to be alive than to be right. Watch for cars entering the roadway.
- 10 Lock Securely**  
Always lock the frame and front wheel to either a rack or a pole. For extra security, lock both front and rear wheels.
