### DC POSITIVE ACCOUNTABLE COMMUNITY TRANSFORMATION (PACT) COMMON AGENDA

#### Principles

| #1: Health and social needs are human rights for all DC residents which require the equitable and sustainable distribution of resources | #2: Partners commit to shared responsibility, accountability, and transparency as necessary components of work performed in the service of health equity and justice | #3: Goals and interventions will be data-focused, driven by person-centered outcomes, and transformative | #4: Work will be coordinated across community services and sectors resulting in respectful and compassionate care that empowers District residents with the greatest health and social needs | #5: We prioritize creativity, flexibility, innovation, and vision in determining the coalition's strategic priorities |

#### Problem Definition

- Racism and the lack of accountability, alignment and investment has led to inequitable social conditions, health and well-being outcomes
- DC functions as a seamless accountable health community that provides care and the social conditions for racial equity, health equity, and community well-being
- Build the movement to create a seamless accountable health community that achieves equitable individual and community well-being in the District of Columbia through community leadership, policy change, infrastructure development, and care improvement

#### Strategic Goals
