

RIESGOS CATASTRÓFICOS GLOBALES

We are a science-policy nonprofit working to improve the public management of Global Catastrophic Risks

**Abrupt Sunlight
Reduction
Scenarios
(ASRS)**

**Artificial
Intelligence
Regulation**

We are
working in four
areas

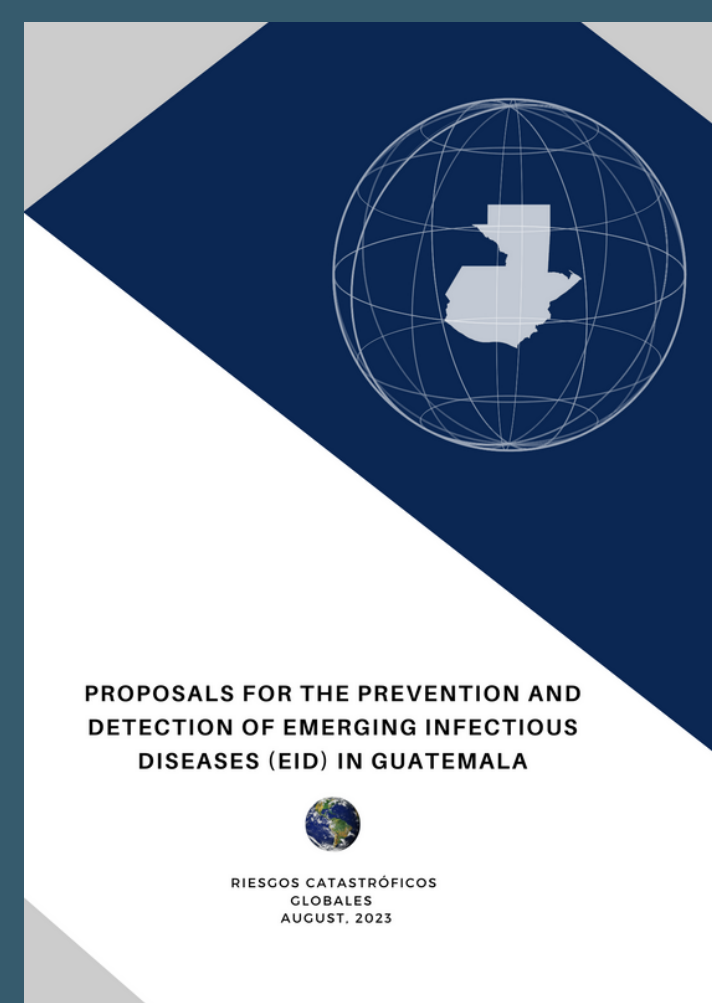

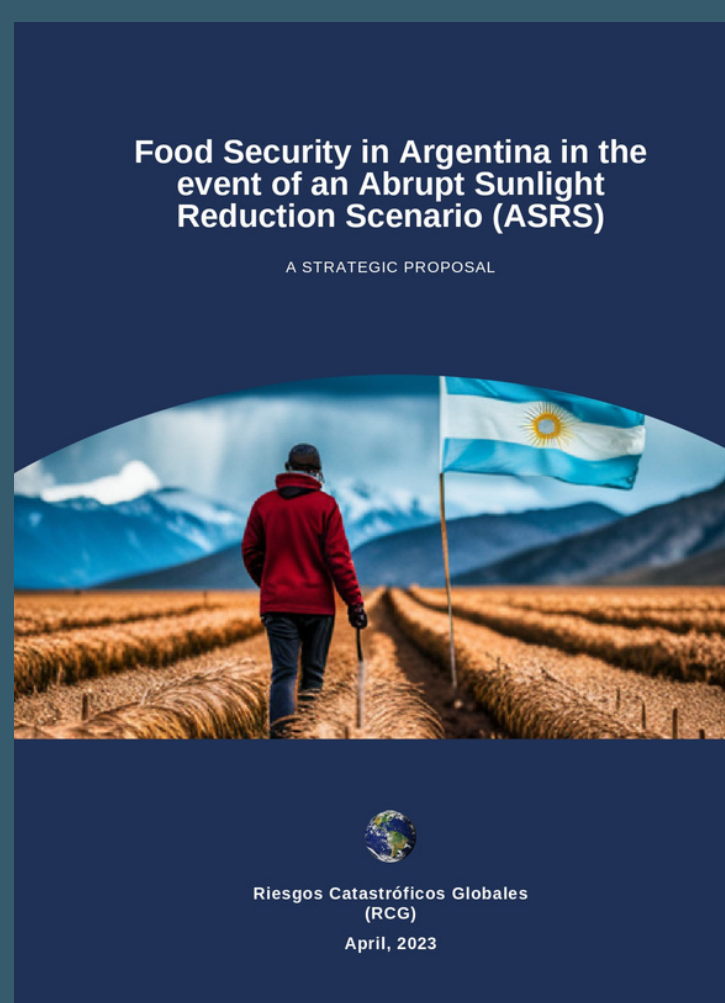

**Biosurveillance
and Pandemic
Prevention**

**Improving Risk
Management**

NOTABLE WORK

Scan the code to see
our publications

FUTURE WORK

Promote our report on AI regulation, participate in the EU AI ACT trilogue, and submit two related articles to academic journals.

Follow through on the invitation from SINAGIR to write a section on ASRS response for the 2024-2030 National Risk Management Plan of Argentina.

Write a report on improving risk management in Latin America by integrating global catastrophic risks into national risk management plans.
