

Put Your Passion in **ACTION**

Behind every statistic is a student.

Our tutors provided more than one million tutoring sessions to 42,000 students across the country during the 2021-2022 school year.

We can support more students with your help!

Help every child in California be a successful learner.

In California, fewer than a third of our students are proficient in reading and math. These skills are essential for success in the classroom and community. With your help, we can give kids more – more opportunities, more success and more confidence.

Whether helping preschoolers to make a strong start, K-3 students to become better readers or working with middle school students to build foundational math skills, we train people to make an impact as tutors. Placed in local schools, our tutors provide extra practice and support that results in incredible growth. Be part of creating more success stories – become a tutor!

Make a difference, tutor kids!

Our programs help kids become stronger learners by training people just like you to be effective tutors. No experience is needed; we provide all the training and ongoing support! Our evidence-based programs work and have already helped more than 450,000 students nationwide.

As a tutor you will:

- Serve in a school setting (full-time and part-time options are available)
- Be a caring adult that provides individualized support to help students build their skills and confidence
- Work in pairs or in small groups with students who need extra practice and support
- Track student progress and regularly meet with the school's on-site coach as well as one of our coaching specialists

Most anyone can make a great tutor. The most important qualification is your passion and desire to make a difference! To review minimum qualifications and additional details, visit us online at Join.ReadingandMath.org.

SCHEDULE All schedules are Monday-Friday.
