human trafficking, and/or inappropriate and abusive behavior of others. **Descriptive Statement:** Defining human trafficking, differentiating between labor and sex trafficking will be discussed, including the recognition that human trafficking is a crime, and that victims may be any gender, any age, and any culture. Ways students can protect themselves and others from trafficking situations, how laws provide protection, and resources for victims will be discussed, along with ways to reach out to a safe adult to report an unsafe situation.

| 6.13 | The student will apply decision-making skills in problem-solving and in determining the possible outcomes of his or her decisions. **Descriptive Statement:** Instruction includes the steps in the decision-making process, problem solving, and assertive communication skills. Using positive mental health practices, students relate decision-making and problem-solving skills to actual adolescent problems—their own or situations presented in case problems. The effects of decisions on lifelong goals are emphasized, and students predict the possible outcomes of decisions made. Students will discuss the permanency of misuse of social media and text messaging including criminal penalties for engaging in sexually explicit communications. Career and other options available are stressed as choices and are identified in the decision-making process. | Johnson | Small Groups - List, discuss and practice refusal strategies  Reinforcement from general health lessons  Skits performed based on real life scenarios | MEH FLE is taught exclusively in the 4th Qtr. |

| 7.1 | The student will identify his or her role and relationships within the family. **Descriptive Statement:** Content includes identification of personal interactions; communication skills; ways of meeting emotional, physical, and intellectual needs; and the student's contribution to the family unit. Students learn the positive benefits of personal sacrifice to support family goals and needs when such a

| 7.11 | **7.11 The student will explain techniques for preventing and reporting sexual assault, human trafficking, and molestation.**  
**Descriptive Statement:** Methods of handling assault and molestation, as well as prevention methods, are presented. Emphasis is placed on the importance of avoiding situations which could provide opportunities for molestation and sexual assault, including the homes and cars of acquaintances when no appropriate supervision is available. Students will practice appropriate use of the Internet and text messaging. Key terms are defined. Approaches and behaviors, both in person and electronically, used by perpetrators are identified and explained. The signs of human trafficking, control methods used in different types of human trafficking, and how to seek adult assistance to report a trafficking situation will be discussed. Community resources for victims of molestation, human trafficking and assault are identified. |
| | Review “Good Decision Making” techniques from General Health (ATOD - Alcohol, Tobacco and Other Drugs) and how they relate to FLE situations.  
Supervision is not a hindrance to your social life but active watching by your parents, guardians and teachers that they use to keep you safe.  
Create possible scenarios where you could potentially be victims of sexual assault or molestation. Then, discuss ways to avoid them altogether.  
Internet - micro and macro discussions - possible pitfalls and dangers out there. Texting, social media (facebook, instagram, snapchat, etc), forums, chat rooms, online gaming, apps and any other form of internet communication that predators may be using to lure and abuse children. *Ask students for the new hot spots so we as teachers can add them to our list of potential hazards.*  
Where can you go for help? Teacher led discussions to fill in the ones they miss. Specifically, which people can you go to for help and specific locations around your community. |
| **Coffren/Johnson** | MEH FLE is taught exclusively in the 4th Qtr. |
| 7.12 | The student will identify causes, symptoms, treatment, prevention, and transmission of sexually transmitted infections, including HIV.  
**Descriptive Statement:** Topics include the prevention, symptoms, treatment, transmission, and diagnosis of the following diseases in addition to HIV, Chlamydia, Genital Herpes, Gonorrhea, HPV, and Syphilis. In addition, myths are dispelled. High-risk activities, such as needle sharing for injection, intravenous drug use and abuse, and unprotected sexual activity are discussed. Community resources that provide testing and treatment of sexually transmitted infections and HIV are identified. | Johnson | Brain Pop Videos: [HIV/Aids](#)
