Place Based

Understanding Pathways to Housing Insecurity
**Mission:** To effect **change in social determinants** that impact child health & well-being in **Avondale, East Price Hill and Lower Price Hill**

**AIM:** To increase the % of families who report feeling secure in their housing

---

**How are we helping the housing crisis?**

Creating new & strengthening connections with community agencies, national organizations, and **municipal policymakers** to influence housing policy change.
SMART Aim

To increase the percentage of families with children <18 years of age, living in designated “hot spots” in Avondale, East Price Hill, and Lower Price Hill who report feeling secure in their housing from X to Y by June 30, 2019

Global Aim

To address social influences impacting child health and well-being outcomes

Population

FY19: Families living in Avondale & Price Hill with at least one child under age of 18

Key Drivers

Effective relationships among families at risk of eviction, housing partners, and landlords

- Shared narrative on eviction prevention that motivates action for positive change
- Intentional strategy to increase housing stability, informed by actionable data
- Learning system structure that supports agile action for eviction prevention at policy, organization, and community levels
- Tactical action to improve housing stability at policy, organization, and community levels

Interventions

- Develop effective connections among local groups that specialize in housing
- Distribute knowledge about housing rights, responsibilities, and best practices among tenants and landlords
- Identify families with housing crisis & work to improve their housing stability
- Identify and develop data to learn about & track local housing crisis to drive tactical action at policy, organization, and community levels
- Eliminate sanctions that create unjust barriers to secure housing (e.g., record of served with eviction regardless of hearing outcome)
- Advocate to improve power differential in eviction process in support of families (e.g., housing court advocacy)
- Support emergency financial assistance (e.g., public fund)
- Identify and prioritize potential policy initiatives to support to improve eviction prevention and housing stability
- Identify and leverage opportunities to alleviate issues related to families inability to pay rent (e.g., utilities issues)
- Understand and align landlord and tenant values
- Seek opportunities to align government, business, and community values in support of housing security for families
- Develop and record families’ self-reported sense of agency scores

Legend

- Potential intervention
- Active intervention
- Adopted/Abandoned intervention
