

## **LANDSEA HOMES BECOMES A HOMEAID NATIONAL SPONSOR**

***Landsea Homes will join their efforts to build a future without homelessness***

**Newport Beach, CA. (March 16, 2023)**— Landsea Homes Corporation (Nasdaq: LSEA) (“Landsea Homes” or the “Company”), a publicly traded residential homebuilder, announced they are now officially a Silver national sponsor of HomeAid, a leading non-profit developer of housing and programmatic facilities for people experiencing or at risk of homelessness.

“Landsea Homes believes that building community is equally as important as building homes, and we are honored to be a part of HomeAid’s mission to build a world where everyone has a safe place to call home,” said Mike Forsum, President and Chief Operating Officer of Landsea Homes, who also joined HomeAid America’s National Board of Directors in 2019. “By becoming a trusted partner with HomeAid, we have the ability to extend our resources to those in need in all of the communities where we live and work. ”

Landsea Homes is committed to making a difference in the nationwide fight against homelessness. The company will support HomeAid on a corporate level and at the division level in its Arizona, Florida, Northern California, Southern California and Texas markets, assisting local HomeAid chapters. Additionally, Landsea Homes will donate \$100 per new home closing to the local HomeAid affiliate in which the closing took place.

Landsea Homes will serve as a key home-building industry partner and utilize HomeAid’s unique model of in-kind donations, which drastically reduces development cost and enables higher quality and dignified housing to be built.

HomeAid currently operates through a network of 19 Affiliates in 13 states. Beginning with a simple remodel of two small farmhouses to end homelessness, the organization grew into a collaboration across the country of local and national builders, suppliers, financial institutions, and community partners, completing over 1,000 developments and effectively ending homelessness for over 500,000 people. These life-changing projects include vital community resource centers, emergency shelters, interim housing and ultimately permanent supportive and affordable housing.

“The success of HomeAid and the impact of our mission in ending homelessness is dependent upon the support and engagement of our partners,” said Scott Larson, Chief Executive Officer of HomeAid. “With the financial support of Landsea Homes along with their leading the construction efforts in building several of HomeAid’s developments as well as involving their

employees in Community Engagement, HomeAid is making great strides in building a future without homelessness.”
