To the Dartmouth Graduate Student Community:

We acknowledge that this has been a tumultuous and difficult year, bringing hardship to our community. Various events have shaken communities around the world, including places our peers and loved ones call home.

As the Graduate Student Council, we are empowered as leaders of our school to look out for others during these trying times. We ask that all graduate students approach each other with kindness and empathy, as global events may be affecting us all in different ways. Ensuring that we can be there for one another is critical for making our community a better place.

To echo the message sent out to all students by Dartmouth leadership, the wellbeing of students is our primary concern. We also would like to remind everyone that if you or someone you know is in need of crisis support, utilize the 24/7 Mental Health Crisis resources available through Dartmouth. Local resources for Vermont and New Hampshire can also be accessed. Listed below are resources shared by the College previously if you are in need of additional support.

In solidarity,
The Dartmouth Graduate Student Council
