WHAT:   The L.A. Trust and the Metropolitan Water District have donated water bottles for all 800 students at Washington Prep High School. Water-wise materials will also be distributed to students and campus staff by We Tap.
WHY:     The new water station effort was led by Washington Prep Student Advisory Board water advocates through their successful partnerships with school administrators and facilities staff. Washington Prep students successfully advocated for three hydration stations at their school and worked with staff on where they would be placed. The school had several water fountains throughout the school, but some did not work properly or due to COVID-19 were not safe and adequate to use, making access to water a challenge. Recognizing the need, students took it upon themselves to advocate for hydration stations.
