## Montgomery Christian School Art Program

*The art program's primary objective is for children to learn to observe, appreciate, and enjoy beauty in the visual arts. It is our purpose that while our students are engaged in any artistic activity, they are being uplifted, elevated, and inspired.*

*The program at MCS is centered around different methods of instruction using books, interactive art activities, and demonstrations to introduce students to the Master Artists. The opportunity is given to use a variety of mediums to create their own art project in the style of the artist they are studying. When a student has completed Kindergarten through 5th grade at Montgomery Christian School, he or she would have studied approximately 40 Master Artists and will take home a portfolio of their own masterpieces.*

*The success of the program at MCS has taught our students to recognize the works of world renown artists as well as develop a personal love and appreciation of art. Your support of Art Splash directly gives children a strong academic education as well as this intentional art program.*

Montgomery Christian School is a private non-profit elementary school serving kindergarten through fifth grades. The mission of MCS is to glorify God by providing an academically challenging education in a Christian environment to families with limited school choice. We believe rigorous curriculum, dedicated educators, involved parents, and Biblical worldview are vital to the success of our students. We are an ACSI, Cognia, and EFCA accredited institution.
