# HEALTH REGULATIONS

Health regulations will be strictly enforced, and decisions of the attending veterinarian concerning animal health status are final. **No animals may be unloaded on the fairgrounds before checked and approved by the attending veterinarian.**

LIVESTOCK EXHIBITORS WHO ARE UNABLE TO ARRIVE AT THE CHECK IN TIMES MUST HAVE 30 DAY HEALTH CERTIFICATES, AND THE REQUIRED TESTS. (SEE ENTRY REQUIREMENTS FOR EACH SPECIES)

All species must follow specific entry requirements listed under each class rules and regulations. All entries shall be inspected prior to unloading. Any and all animals not meeting the entry requirements and/or exhibiting any signs of disease or illness, may be refused entry, required to be isolated and/or required to be returned to the farm of origin.

## CATTLE

The health certificate should contain the following:

1. Name and address of exhibitor.
2. Description of each animal including breed, age, sex, and registration, tattoo, ear tag or some other form of identification (other than the animal's name).
3. A statement by the veterinarian signing the health certificate that the cattle listed are not infected with, nor have been recently exposed to communicable disease to the best of his knowledge.
4. Information related to brucellosis:
  - a. Those cattle that are native to Virginia need not be tested. (Native meaning those cattle which were born in Virginia or which met Virginia import requirements.)
  - b. Cattle originating from any certified brucellosis free herd, regardless of the state of origin, may enter Virginia, provided the following information is recorded on the official certificate:
    - i. The individual identification of the animal
    - ii. The herd certification number
    - iii. The date of the last herd test, and
    - iv. A permit when otherwise required in the rule
  - c. Cattle imported from a Class Free State shall originate from a herd not under quarantine and need not be tested.
  - d. Notwithstanding any other provisions of this rule, a brucellosis test is not required for steers or spayed females and no test prior to entry into the state is required of:
    - i. Cattle under the age of 8 months.
    - ii. Heifers of the beef breed less than 24 months of age and officially vaccinated against brucellosis.
5. Information relating to tuberculosis (cattle):

Any cattle over (6) months of age not originating from a Tuberculosis Free state shall be required to have official tuberculosis test within 30 days of entry, unless from an accredited herd.

# HEALTH REGULATIONS (continued)

## SHEEP AND GOAT

The health certificate should contain the following:

1. Name and address of exhibitor.
2. Description of each animal including breed, age, sex, and any registration, tattoo, or ear tag numbers.
3. A statement by the veterinarian signing the health certificate that the sheep or goats listed are not infected with, or have been recently exposed to, any communicable disease to the best of his/her knowledge.

Any animal showing evidence of suspicious fungal lesions must have a signed veterinarian's statement on the health certificate with the date and type of treatment.

4. If the sheep originate from a scabies eradication area, a statement from the veterinarian to the effect that the flock of origin is scabies-free, and the animals listed on the health certificate have been dipped under state or federal supervision within ten (10) days prior to entry to the fair.
5. All sheep and goats imported from out-of-state must have a brucellosis test within **30 days** prior to entry and a tuberculosis test within **30 days** prior to entry, unless originating from an accredited, certified herd. (This must be stated on the health certificate, along with the date of testing.)
6. **All sheep and goats must comply with new USDA Scrapie Eradication Program guidelines – for more information call 1-800-USDA-TAG.**
