Building advanced multicellular systems in 3D

- Organoid technologies
- Recapitulating development and regeneration *in vitro*
- Organ-on-a-chip and micro-physiological systems
- Disease modeling, drug discovery and personalized medicine

Keynote Speakers:

Mina Gouti
Max Delbrück Center for Molecular Medicine

Karl Koehler
Harvard Medical School

Confirmed Speakers:

Joep Beumer
Roche Institute of Human Biology

Gerald Schwank
University of Zurich

Ivan Martin
University of Basel

Barbara Treutlein
ETH Zurich

Ludovic Vallier
Berlin Institute of Health

Aydan Bulut-Karslioglu
Max Planck Institute for Molecular Genetics

Peter Loskill
Eberhard Karls University Tübingen

Magdalena Renner
Institute of Molecular and Clinical Ophthalmology Basel

Margherita Turco
Friedrich Miescher Institute for Biomedical Research

Jesse Veenvliet
Max Planck Institute of Molecular Cell Biology and Genetics

Dagmar Iber
ETH Zurich

Matthias Lutolf
Roche Institute of Human Biology

Jennifer Rohn
University College London

Rosemarie Ungricht
Novartis

Manya Du
Max Planck Institute of Immunobiology and Epigenetics

Registration opens on 1 March, 2024

Abstract submission Deadline:
13 May, 2024

Information: BaCell3D.ch
Contact: BaCell3D@gmail.com

Organizing committee:
Leoni Swart
Sandro Nuciforo
Franziska Moos

Lara Grassi
Elizabeth Kastanaki
Mehmet Girgin

Umut Kilik
Ashley Maynard
Saba Rezakhani

JiSo Park
Maren Diepenbruck
Akanksha Jain

Nathalie Reinhard
