

CARICOM
CONSULAR CORPS NEW YORK

HURRICANE BERYL DISASTER RELIEF

Grenada, Jamaica & St. Vincent and the Grenadines

The Caricom Consular Corps consists of members Jamaica, Antigua, Commonwealth of the Bahamas, Republic of Barbados, Commonwealth of Dominica, Grenada, The Co-operative Republic of Guyana, Republic of Haiti, Federation of Saint Christopher and Nevis, Saint Lucia, Saint Vincent and the Grenadines, Republic of Trinidad and Tobago.

The Caricom Consular Corps is currently chaired by Jamaica's Consul General Mrs. Alston Wilson.

OVERVIEW OF THE SITUATION IN THE CARICOM ISLANDS

In what has been predicted to be an active hurricane season, Hurricane Beryl made an unprecedented early impact on the Caricom islands of Grenada, Jamaica, and St. Vincent and the Grenadines. The storm, which rapidly intensified from a tropical depression into a Category 4 hurricane and briefly reached Category 5 status, has left a trail of devastation across these islands. This document outlines the specific needs and challenges faced by each of these islands in the aftermath of Hurricane Beryl, highlighting the extensive damage and the international response efforts to aid recovery.

Impact on Grenada

Hurricane Beryl made its first landfall on the island of Carriacou, part of Grenada, on July 1. The storm brought unprecedented destruction, affecting the entire population of Carriacou. Roads became impassable, and communication networks were down for several days. The severity of the crisis has created severe logistical challenges in delivering aid and restoring basic services. Despite the rough seas and damaged infrastructure, international aid, including assistance from nearby nations and a French ship, has begun to arrive to support the recovery efforts.

Simon Springett, UN Resident Coordinator in Barbados and the Eastern Caribbean, reported via video link from Grenada, describing the scene as one of total devastation. “The entire island is completely affected ... that is literally 100 percent of the population,” he stressed. The immediate needs include clearing roads, restoring communication lines, and providing essential supplies such as food, water, and medical aid.

Impact on St. Vincent and the Grenadines

Union Island, part of St. Vincent and the Grenadines, also felt the full force of Hurricane Beryl on July 1. The island experienced catastrophic damage, with virtually every building either destroyed or severely damaged. The majority of the population is now homeless, facing immediate needs for shelter, food, and clean water. Communication and power remain largely disrupted, complicating the relief efforts. The local government, along with international partners, is working to address these urgent needs, but the scale of the destruction requires substantial international assistance.

Residents have shared harrowing accounts of the destruction, with Coy stating that “literally, almost the whole island is homeless.” Sebastien Saily described the storm’s impact as “like a tornado has passed through here. Ninety percent of the island – easily 90 percent – has been erased.” The community’s immediate priorities are shelter, food, and water, with additional needs for generators, sanitary products, and medical supplies.

Impact on Jamaica

Hurricane Beryl impacted Jamaica on July 3, bringing significant destruction, particularly to the agricultural sector. The storm caused widespread damage to crops, livestock, and fishing infrastructure, leading to immediate concerns about food shortages. The southern coast of Jamaica, including the parishes of Clarendon, Manchester, and St. Elizabeth, experienced severe flooding and power outages. The Jamaican government, supported by the UN and other international organizations, is conducting detailed damage assessments and coordinating relief efforts to restore essential services and support the recovery of the agricultural sector.

Agriculture Minister Floyd Green reported that over \$6.4 million in crops and supporting infrastructure were destroyed. He highlighted the significant damage to vegetables, yams, cassava, breadfruit, ackee, mangoes, and bananas. Livestock and poultry farmers also suffered substantial losses. The government is working on a response plan to assist affected farmers and ensure the restoration of the food supply chain. The total assessment of damage is still ongoing with a final cost to be determined.

The unprecedented early arrival and intensity of Hurricane Beryl have highlighted the vulnerability of the Caricom islands to such extreme weather events, which are becoming more frequent and severe due to climate change. The extensive damage and humanitarian needs across Grenada, St. Vincent and the Grenadines, and Jamaica underscore the necessity for robust international cooperation and support.

We call upon the global community, international aid organizations, and governments to mobilize resources and provide immediate assistance to the affected islands. This includes financial aid, technical support, and the provision of essential supplies such as food, water, medical aid, and construction materials. Additionally, efforts should focus on rebuilding infrastructure to be more resilient to future storms, investing in disaster preparedness, and addressing the root causes of climate change to mitigate the impact of such devastating events. Together, we can help these islands recover and build a more sustainable and secure future for their inhabitants.

HOW YOU CAN ASSIST

The recovery and rebuilding efforts in Grenada, St. Vincent and the Grenadines, and Jamaica require coordinated action and support from individuals, organizations, and governments worldwide. Here are several ways you can help:

Donate Essential Supplies

See the list of needs in subsequent pages. However you may pay attention to the broad areas.

Food and Water: water purification supplies.

Shelter: Tents, tarpaulins, and construction materials to rebuild homes and temporary shelters.

Medical Supplies: First aid kits, medications, and medical equipment.

Sanitary Products: Toiletries, hygiene kits, and sanitary products.

Power: Generators, batteries, and solar-powered equipment.

Agriculture supplies: Seeds, tools, to start the recovery for food sustainability.

Financial Contributions

Monetary donations are crucial for providing immediate relief and supporting long-term recovery efforts. The ways you can send financial contributions are listed for each country.

RELIEF FUND FOR HURRICANE BERYL

Help Grenada, Carriacou, and Petite Martinique Recover from Hurricane Beryl

Your support is urgently needed to aid the relief efforts in Grenada, Carriacou, and Petite Martinique following the devastating passage of Hurricane Beryl. Every donation makes a difference in helping the communities rebuild and recover.

How to Donate?

There are several ways to contribute to the relief and recovery efforts in Grenada, Carriacou and Petite Martinique.

Direct Deposit

Use your online banking service or visit a local branch of the Grenada Co-operative Bank to make a direct deposit to the savings account named Government of Grenada Natural Disaster Relief Fund, account number 121004900.

Online Transfers using a Credit or Debit Card

Following these simple steps:

1. From your browser on your mobile device or computer, visit www.pay.gov.gd.
2. Select "Make a Payment."
3. From the options provided under "Category" and "Pay For", select "Hurricane Beryl Relief Donation."
4. Choose the amount you want to contribute from the options provided or insert an alternative amount.
5. Select "Make a Payment" and insert the relevant information.
6. Complete the transaction by confirming payment.

International Wire Transfers

Use the online banking service provided by your bank to send a wire transfer or visit your local branch to have the process completed by an agent. Note that a fee may apply for this transaction.

PUBLIC ANNOUNCEMENT

Re: Saint Vincent and the Grenadines Disaster Relief - Hurricane Beryl

On July 1, 2024, Beryl slammed into Saint Vincent and the Grenadines as a Category 4 hurricane with sustained winds of 150mph (240km/h), unleashing fury on our multi-island state and leaving in its wake immense destruction. These powerful winds and torrential rains caused widespread structural damage throughout the island with several roofs blown off leaving thousands of people without shelter, electricity, telecommunication services, and food supplies. The Southern Grenadine Island of Union Island bore the brunt of this dangerous hurricane. A staggering 90% of homes there were either severely damaged or destroyed. The island's airport also suffered significant damage. Similar devastation was reported in the Grenadine islands of Mayreau and Canouan.

The Government of Saint Vincent and the Grenadines, working with its overseas missions, has sprung into action to quickly tackle the long list of post-hurricane priorities facing the nation. As such, the Government has established a **Disaster Relief Fund Website** that will facilitate online financial contributions in support of the hurricane relief efforts. Please feel free to visit www.svghurricane relief.gov.vc to make your contributions. *Kindly note that this website will go live within the next 36 hours.* Contributions to the Disaster Relief Fund can also be made using the **attached banking information**.

Based on preliminary assessments, the Government has also provided an immediate needs list for emergency supplies. As such the Consulate General working with SVG Relief Inc. has established **two collection hubs in Brooklyn. Further information can be found in the documents contained hereunder.**

Please feel free to contact the office of the Consulate General of Saint Vincent and the Grenadines to the United States at (212)-687-4490 or email mail784@svgconsulateny.org .

The Consulate General continues to stand in solidarity with our family and friends. In the words of our honorable Prime Minister, "They are us and we are them. We will comfort, console, shelter, and feed our people. We will build it back!"

We are all in this together!

**ST. VINCENT AND THE GRENADINES
IN NEED OF SUPPLIES AND DONATIONS IN WAKE OF HURRICANE BERYL**

On Monday, July 1, 2024, Hurricane Beryl, a category 4 storm, barreled through our homeland St. Vincent and the Grenadines (SVG) causing massive destruction to our beloved country.

Beryl brought devastation with significantly heavy rainfalls and winds. As a result, there were loss of lives, destroyed and damaged homes, buildings, and crops.

SVG Relief USA Inc., the trusted messenger for relief efforts, is working with the Consulate General of St. Vincent and the Grenadines USA, and the St. Vincent and the Grenadines National Emergency Management Organization (NEMO) to spearhead relief efforts.

On Saturday and Sunday, July 6 and 7, respectively, we begin our **Hurricane Beryl Relief Drive** at **Friends of Crown Heights, 671 Prospect Place, Brooklyn, NY 11213 from 10:00 a.m. to 8:00 p.m.** We are seeking your assistance for monetary donations and supplies to send immediately to SVG.

The items being requested at this time by NEMO include:

Generators – 12kw to 16kw 66kw or Greater	Mattresses – Single and Double
Sleeping Cots	Hygiene Kits
Tarpaulin – 30’ X 40’ 20’ X 20’ 16’ X 20’	Water Jugs
Bedding Kits – Sheets and Pillows	Adult Diapers
Tents – 20’ X 20’ (or larger) with Covered Sides	Children Pampers – Assorted Sizes
Flashlights With Batteries	Battery Operated Lantern/Solar
Power Banks	Ropes — 50 feet
Shovels	Wheelbarrows
Rakes	Chain Saws and Accessories

WE ARE NOT ACCEPTING WATER, FOOD, AND CLOTHING AT THIS TIME

During the week, items should be dropped off at **Standard Shippers, 9502 Ditmas Avenue, Brooklyn, NY 11236** from **Monday to Friday, 10:00am to 3:00pm.**

For further information, fell free to contact me at 646-915-2791.

Thank you for your continued support in all our relief efforts.
