

# MCC Committee

## Midcoast California Coastal Trail Report

Updated: March 27, 2013

The MCC California Coastal Trail (CCT) committee is developing a Concept Plan Report for the Midcoast CCT from Pillar Point to Montara State Beach.

The committee especially wants to identify a walking trail that provides the closest access to the shoreline. The committee feels it is important to identify this trail so that it gains public recognition and support.

# Report Overview

- Major Sections Address:
  - Route
  - Issues / Required Projects
  - Issues / Improvement Opportunities
  - Signage
  - Parking
  - Vertical Coastal Access
- Other areas
  - Highway 1 Crossings
  - Montara State Beach

## Additional Action

- Publicly identify the “Midcoast Walkable Coastline Trail” label for the Midcoast route for the bluff trails nearest the bluff edge from Pillar Point through the Fitzgerald Marine Reserve.
- Develop a work plan to address issues and to gain public recognition and support

# Pillar Point to FMR - The Walkable Coastline Trail

## CCT Braided Trail: Pillar Point - Fitzgerald Marine Reserve

- Propose: The “Midcoast Walkable Coastline Trail” be taken in its entirety as a CCT braided segment.
- Recommend improvements to provide a safe street bicycle trail along the Airport St. and the Dardenelle Trail CCT segment.
- Consider the Jean Lauer Trail as the core of a braided segment for this area supporting bicycle and handicapped access.
