Miroo:

The MidCoast Community Council Planning and Zoning Committee originally reviewed the above referenced application at our regular meeting of 03/05/03, and received the revised project from you at the end of March.

After review of the revisions, we feel that our objections to the earlier version of the project have been addressed, and we would support this project moving forward with the recommendations of the Coastside Design Review Committee.

Thank you for your help, and please keep us informed of any further developments, redesigns, hearings, approvals or appeals concerning this application.
