re: Proposed amendments to the San Mateo County LCP, "Coastside Protection Initiative"

Dear Mr. Liebster,

Attached you will find copies of several letters from the MidCoast Community Council (MCCC) regarding the proposed amendments to the San Mateo County LCP, commonly referred to as the Coastside Protection Initiative, or CPI.

The MCCC studied these issues in great detail, over the course of more than one year and numerous public meetings. We strongly believe our positions reflect the positions of the majority of residents of the unincorporated San Mateo county coastside area. We urge the Coastal Commission to take these recommendations into consideration during its deliberations, and modify the LCP amendment accordingly.

If you would like to discuss any of these issues in detail, please feel free to contact any of the following people:

Ric Lohman, Chair MCCC, 415-726-9607

Elizabeth Vespremi, MCCC Planning & Zoning Subcommittee, 415-728-9530

Chris McComb, 415-728-1907

Sincerely,
MidCoast Community Council

Chris McComb, Councilmember
