

Midcoast Community Council, November 2018  
Ballot Statement

LEN ERICKSON  
Education Consultant

I have been a resident of the Midcoast since 2001 and live in El Granada.

During my time here I have served one term as a Midocast Community Council (MCC) member and one year as the chair of the council. I have been active in highway, trail and park improvement projects and I was the project coordinator for the first phase of the Highway 1 Safety and Mobility Study.

I am active in programs that support local schools both as a provider of educational services and as a volunteer with an emphasis in the areas of technology and science.

I want to see the MCC continue to provide an effective forum for residents to have the opportunity to bring their views forward in all areas of community interest. I am particularly interested in developing an effective focus on the highway, parks and trails which are critical elements of the San Mateo County Midcoast.
