To: Steve Monowitz, Community Development Director

Cc: Supervisor Don Horsley

From: Midcoast Community Council/ Dave Olson, Chair

Subject: Request for Tsunami Inundation Map in the General Plan

The Tsunami Hazard Zone map in the General Plan, which is referenced in the LCP, is considerably out of date, based on 1973 data and adopted in 1976. Additionally, the digitized versions are very difficult to work with.

The Midcoast Community Council requests that an updated Tsunami Hazards map using the latest science be added to the County General Plan Hazards Maps, for use in development review.

One possibility would be to adopt the maps prepared by California Emergency Management Agency, California Geological Survey and University of Southern California labeled "Tsunami Inundation Map for Emergency Planning" dated June 15, 2009:
