SANDWICHES

To guide you to better food choices for our planet, we have teamed up with Klimato to present climate labels on all retail menus during COP26. Klimato uses climate data from lifecycle assessments to calculate the carbon footprint of meals served during the Summit. The Klimato climate label indicates whether a dish has a Low, Medium or High carbon footprint.

SAVOURY CHEESE

HAM & WHOLEGRAIN MUSTARD

SMOKED HAM WITH MATURE CHEDDAR CHEESE

VEGAN CHEESE PLOUGHMANS - PLANT-BASED

SCOTTISH MATURE CHEDDAR & ARRAN CHUTNEY on wholemeal and white flour bread

EGG MAYONNAISE WITH BROCCO CRESS with blacked pepper, on wholemeal and white flour bread

Today, an average meal has a carbon footprint of 1.7 kg CO2e in the UK. According to the WWF, we need to get this number down below 0.5 kg CO2e to reach the goals defined in the Paris Agreement. By including climate labels on our menus, we aim to make it easier to achieve this goal - together.
