

# INTERNATIONAL LARDER

To guide you to better food choices for our planet, we have teamed up with Klimato to present climate labels on all retail menus during COP26. Klimato uses climate data from lifecycle assessments to calculate the carbon footprint of meals served during the Summit. The Klimato climate label indicates whether a dish has a Low, Medium or High carbon footprint

## WOODLAND MUSHROOM & KALE RAMEN

with organic spelt noodles, pickled root vegetables, Mara seaweed and atsin'a cress - PLANT-BASED

roasted root vegetables, barley and arborio rice, chopped flat leaf parsley and a vegan cheese crumb - PLANT-BASED

## CHICKEN TIKKA CURRY

citrus and coriander infused rice with Scottish flour flat bread

Today, an average meal has a carbon footprint of 1.7 kg CO<sub>2</sub>e in the UK. According to the WWF, we need to get this number down below 0.5 kg CO<sub>2</sub>e to reach the goals defined in the Paris Agreement. By including climate labels on our menus, we aim to make it easier to achieve this goal - together.
