Forest Hills Public Schools (FHPS) ranks in the top 5% of school districts nationally, according to U.S. News & World Report. In fact, FHPS is known as a “destination district,” drawing families from all over to attend. It’s important to preserve the FHPS legacy and reputation of excellence by electing objective, skilled, and competent school board candidates to the Board of Education.

Four of our seven board seats are on the ballot. Our parent volunteers vetted 13 candidates and recommend Dr. CJ Michaud, Malorie Ninemeier, and Dr. Ed Aboufadel. Pick your favorite “pro-FHPS” fourth, such as Suzanne Callahan, Justin Sheldon, or Brian Spratke. We do not recommend the chalkboard “recall four” candidates.

**Nonpartisan Tradition**

The Board of Education is a nonpartisan office and members are expected to honor the tradition of objective, data-driven service. Over the past year, a local attack group has led a vocal campaign to push for hyper-partisan candidates.

**High Standards**

- Math and reading proficiency is double the Michigan average.
- 11th grade scores steadily rank alongside the top 10 districts in Michigan.
- 96% graduation rate; 83% go to college; AP enrollment is up

**more on the line:**

High performing school districts help keep property values high, and attract and retain quality educators. There’s also an important millage for FHPS recreation services - vote YES!
