

GET WILD WYOMING

We don't want students **CLIMBING** up the walls when they get home, so let's tear down the walls of your classroom so kids can **GET WILD** through nature-based education! From improving mood to increasing activity levels, **NATURE CAN NURTURE US!** Research shows that there are many benefits for children who spend time **OUTSIDE**.

What is nature-based education? It can be any form of learning where children are actively engaging with their natural environment. It can take place at home, in one of our beautiful **STATE PARKS**, at the big pine tree on the school playground, or anywhere outside.

The Get Wild Wyoming initiative is a partnership between the Wyoming Department of Education, **WYOMING** State Parks, Wyoming Game and Fish and the Wyoming Department of Health. It focuses on supporting the overall mental and physical **WELLNESS** of a child through nature-based education.
