

SCOIR

What is it and why do I have an account?

Scoir is a customized, secure website that **supports post-secondary, college and career planning**. It is designed to assist JM students and their parents/guardians in making informed decisions about college opportunities and career choices. The College Counseling team uses SCOIR to advise students and parents and to send official school documents, and SCOIR is often referred to as “the lifeline to all things college.”

This online resource allows students the ability to research colleges, view anonymous statistical and historical data on other JM students, build a resume, take a career interest inventory, view the schedule of college representatives visiting Judge, and much more.

SCOIR is offered as a complement to the series of individual and group meetings that are available to students and families in partnership with the College Counseling.

Some specific resources on Scoir include:

- College Search: This tool allows users to enter criteria such as size, location, cost, availability of specific majors or athletic programs and a list will be provided that meets these criteria.
- College Lookup: This tool provides comprehensive information on thousands of US colleges and universities. A link to each college’s website is also provided.
- College Compare: This feature allows students to compare how your standardized testing scores and your GPA fare against the colleges that you have selected.
- Scattergram: This tool provides a graphical view of application outcomes (accepted, denied, waitlisted) at a specific college, using the GPA and SAT scores for KRHS students. It does not provide data on students from other high schools.

Every student and parent at Judge has a SCOIR account (exception- Freshman accounts will open in the spring)

How do students access Scoir? Can parents also access it?

The site can also be accessed via www.scoir.com

Students received instructions from school counselors on establishing a SCOIR account during the spring of Freshman year. Parents can access SCOIR through the invitation students send through their student account. This also links the student account with the parents’.

When can students first access SCOIR?

Students are initially introduced to SCOIR during the spring of Freshman year and are provided with instruction to establish a SCOIR account.

Sophomore, Junior, and Senior parents: log on and take a look around! Once you have your SCOIR account you will receive our Tuesday College Connection - The TCC! - emailed through SCOIR every week with timely and valuable deadlines and information.
