Engaging Community Partners

1. **Engagement Rubric**
   - Accessibility: Document and Video
   - Provides guidance on methods for engaging community partners throughout each phase of a research study, laying the foundation for equitable partnerships.

2. **Engaging Community-Driven Research**
   - Accessibility: Video Module
   - ‘A video module featuring patients, clinicians, and others describing why people engage in research, their challenges and experiences.’

3. **Understanding and Sharing Research Findings**
   - Accessibility: Video Module
   - ‘How community partners support the research team interpret collected data and determine findings. This module also explores how a study’s findings can be used in different settings and how they’re shared to inform healthcare choices.’
