

UNDERGRADUATE SUMMER BRAIN RESEARCH PROGRAM

2023
JUNE 5 - AUGUST 11

Boys Town National Research Hospital

offers a collaborative undergraduate summer research program in the areas of cognitive neuroscience, data modeling, and human neuroimaging. Accepted applicants complete a 10-week rotation in an affiliated laboratory doing hands-on research.

How to Apply

Join our research teams by sending a resume (with GPA) and interest letter by **February 16th, 2023**. Interest letters should include the applicant's primary research interests and the names of three possible faculty mentors. Final decisions will be made by **February 28th, 2023**.

Learn more about our faculty mentors here:
<http://tinyurl.com/yc5cz84a>

Send applications (resume with GPA and interest letter specifying mentors) and questions to:
Anson Lee
anson.lee@boystown.org
