Below are less than six months of tweets by George Webb @realgeorgewebb1
January to June 2023.

There are thousands and thousands more Twitter posts – as he has tweeted 2-3 posts about me each day for years. He also has a substack (that I don’t have access to).

George Webb has written thousands of Twitter posts attacking me. He mixes fact, fiction and fake posts. He has gained almost 100,000 followers on twitter by doing this.

This man accuses me of being a mass murderer, taking billions in federal money, convincing the government to use Remdesivir as standard of care, introducing the mRNA vaccines as a bioweapon, collaborating with Russians, causing the Antrax attacks, etc. the list literally goes on and on. His followers then harass me and frankly, have also threatened me. This has then spawned a whole group of social media influencers that attack myself and my wife. Webb has blamed me for the Antrax attacks, SARS, MERS, Zika, Ebola, etc. It has become some sort of sick business models - as George Webb is literally growing his social media businesses by making stuff up about me and provides fake info to his followers.

It is a hate cult. I have had death threats, people saying horrific things about me. It literally doesn’t end. This has all has caused extreme emotional distress within my family.

He also has hundreds of videos that he has created about me.

What he writes about me on his give and go page (https://www.givesendgo.com/GA837)
Robert Malone has become unhinged from the exposure of his connections to the World Health Organization, CIA Operative Michael Callahan, Ex-CIA Business Partner Darrell Galloway, and disgraced former head of Ft. Detrick biolab, Sina Bavari. Malone has taken to retweeting a New York film maker who has accused George Webb and his brother on "leaving open the Federal Bridge" electronic interchange that allowed 9/11 to happen. This New York film maker actively worked with David Hawkins, a Canadian from Vancouver BC, to have the survivors of the 9/11 trajegy to exact reprisals on Webb and his family. An ex-State Department employee from Norfolk, Virginia came to Webb's remote Maryland island, then threatened to "Waco, Jonestown, and flamethrower" Webb's family. Robert Malone Retweeting this film maker's outrageous claims puts Webb's family in continual jeopardy. Robert Malone should compensate Webb for the reckless and vicious attack on Webb's character and the safety of his family.
So why didn’t Dr. Robert Malone of Alchem evaluate HCQ when Zhengli at Wuhan Institute of Virology was saying it was effective on Feb 4th, 2020? Source - Housatonic Live on YouTube.

Remdesivir and chloroquine effectively inhibit the recently emerged novel coronavirus (2019-nCoV) in vitro.

I will be joined at the top of the hour by @RealGeorgeWebb1 and @HousatonicLive to discuss Robert Malone, and other topics on Rumble.
Always nice to get a compliment from the Incomparable One.

Gosh, what an informative exposé on Dr. Robert Malone: Dr. Jane Ruby and Investigative Journalist George Webb: Get to know your Left–Right Gatekeepers
Bob Malone was the Chief Medical Officer for Alchem and consultant for ten years. They did the study that found there were no existing treatments for Coronavirus, opening the way for EUA for mRNA.

He didn’t learn and evolve when it mattered most - when he and only he had the chance to repurpose drugs to stop COVID in Jan and Feb 2020. He bypassed HCQ and IVM to allow the EUA of mRNA by only looking at Pepsid AC.
George Webb - Investigative Journal... @RealGeorgeWe... · Jan 25

Look at Talton at Alchem. Lots of work for BARDA and DTRA with Nanoparticles. Inhale-able vaccines and other applications for war fighting including tag and trace.

Nanotherapeutics, Inc. for seventeen years. Dr. Talton has developed multiple clinical-stage products as well as NanoFUSE® DBM, a sterile, FDA-cleared (K062459) easy-to-reconstitute bone graft. Leading

Happy Valentines Day to Adam Schiff, Igor Pasternak, and Worldwide Aeros Surveillance Balloons. Sorry you lost your House Intel seat, and DoD had to admit you were hiding the “Chinese satellite” flights for doing COVID digital detection over the last four years.
Why doesn't Bob Malone ever talk about his DTRA/Lincoln Lab Leidos project with Darrell Ricke?

Prior to January 2017, the FBI required DNA profiles submitted for CODIS entry to include the following 13 loci or locations, called Core Loci (shaded area). Amelogenin is used for gender determination.

Malone's Big DOMANE Lie Is Crashing Silicon Valley Speculators Who Believe In Bio-Al., by @RealGeorgeWebb1
open.substack.com/pub/georgewebb...
Bob Malone’s Inovio was another beneficiary of the BCG Biogen pump and dump conference of Feb 2020.
Peter Duke asks me if Bob Malone’s Leidos machine denied my entry to the Vaccine Litigation Conference. I haven’t laughed so hard in a long time. @thedukereport
What if Bob Malone has snuck Remdesivir into his DOMANE clinical trials over the last three years?

Each participant receives the standard of care (SOC), which typically involves the following:

- Remdesivir
- Dexamethasone
- Lovenox
- Tocilizumab
- Convalescent plasma

Per the protocol, the study investigator has the leeway to drop the study combination drug and use dexamethasone for those study participants who require supplemental oxygen as outlined in the National Institutes of Health COVID-19 Treatment Guidelines. Also, for example, if any subjects require high-flow oxygen, non-invasive ventilation, invasive mechanical ventilation, or extracorporeal membrane oxygenation the investigator can switch to established protocols involving dexamethasone.

Robert Malone has also cleverly slipped Remdesiver into all the trials over the last three years.

JOSH POTTEL, PhD

Molecular Forecaster Inc.
Distinguished DDTP Alumnus
Finding ACE2 - Helping Bob Malone And DOMANE - Three years of no AI results and counting.

Bob Malone curious chase for the “Leidos Particle”, and not the COVID anything.
Malone is sadly mistaken that actually reporting the facts somehow makes me money. I have two dead research partners, no money left from six years of using my own money for research, ($750k), and nobody even bought me a coffee today. Malone is pulling the Donie O’Sullivan, Hillary tap dance. You must be doing this for money. Wrong. But someone else in the story might have made some.

You and **Malone** are in a neck-and-neck hypocrisy battle. Did you guys yuck it up about fleecing all the Red State widows from Remdesivir deaths at the **Atlanta** Conference? I notice your "**COVID Litigation Tour**" is only marketing to MAGA folks.

**Founder of PR Firm Shut Down Over Sexual Harassment Allegations Launches Project to Protect Women at Work**

*By Anna Merlan* | Published May 17, 2017 | Comments (31)

Trevor FitzGibbon, one of the founders of FitzGibbon Media, a major progressive PR firm which shut down in December 2015 amidst allegations of sexual harassment and assault against him, has co-launched a new venture aimed at—get this—creating "a culture where women can flourish both in and out of the workplace." With the U.S. Attorney in Washington D.C. declining to press criminal charges against him, FitzGibbon has now declared himself "cleared," and apparently, an appropriate choice to lead this initiative, called **Dignity for Our Daughters**.

Before it shuttered, FitzGibbon Media represented a powerhouse of progressive and leftist organizations, including MoveOn.org, NARAL, the AFL-CIO, and Wikileaks. The firm also issued statements from Chelsea Manning and helped her tweet from prison. The allegations against Trevor FitzGibbon ranged from sexual harassment to outright sexual assault; in statements to the media, staffers described six separate incidents of sexual harassment against as many women and two allegations of assault.
George Webb - Investigative Journ... @RealGeorgeWe... · Jan 19

Yes, Malone used the Corona hysteria to focus everyone on Pepcid AC when he knew HCQ and IVT worked from his previous studies. The Pepcid AC bait and switch was critical for mRNA to get emergency use authorization.

George Webb - Investigative Journ... @RealGeorgeWe... · Jan 17

I asked why he didn’t evaluate HCQ. But come to think of it, Bob did give the stamp of approval for Remdesivir.
So why didn't Dr. Robert Malone of Alchem evaluate HCQ when Zhengli at Wuhan Institute of Virology was saying it was effective on Feb 4th, 2020?

Pfizer statement undermines Jordan Triston Walker's conjecture on vaccine and therapeutic development at Pfizer. Bob Malone and Michael Callahan's Walker sideshow has been effective however, in diverting attention from mRNA bid rigging at Wellcome Trust and WHO.

Friday, January 27, 2023 - 08:00pm

Share

New York, N.Y., January 27, 2023 - Allegations have recently been made related to gain of function and directed evolution research at Pfizer and the company would like to set the record straight.

In the ongoing development of the Pfizer-BioNTech COVID-19 vaccine, treatment, PAXLOVID™, Pfizer undertakes in vitro work (e.g., in a laboratory culture dish) to identify potential resistance mutations to nirmatrelvir, one of PAXLOVID's two components. With a naturally evolving virus, it is important to routinely assess the activity of an antiviral. Most of this work is conducted using computer simulations or mutations of the main protease—a non-infectious part of the virus. In a limited number of cases when a full virus does not contain any known gain of function mutations, such
Robert Malone confirms my reporting on Alchem’s FC pathway attacking T Cell immunity through DPP4/CD-26. Can’t say we didn’t report on that months ago.

Celecoxib is Celebrex in the US. Pfizer’s tradename.

Dr. Robert Malone declares under penalty of perjury: currently serve as CEO and Principal Consultant for RW Malone MD LLC, primarily supporting the US Department of Defense, Defense Threat Reduction

Drugs: Famotidine and Famotidine + Celecoxib as treatment for both outpatient and inpatient COVID-19 disease, and have academic publications relating to this work. This work has yielded
Watch what Bob Malone says in Court testimony versus what he says on stage. He pushed Celebrex in India (Celecoxib) as a COVID treatment after it was removed for the US market in 2008 after a slew of heart attack lawsuits.

NEW YORK (Reuters) - Pfizer Inc said on Friday it plans to pay $894 million to settle lawsuits alleging that its withdrawn Bextra painkiller and widely used Celebrex arthritis drug harmed U.S. patients and defrauded consumers.

Both his father and father in law at Raytheon at the Cambridge Lab.

I am not saying “no virus”. There are viruses. But you can supplement them with “engineered pathogens”.
Boston Consulting Group’s Josh Kellar and his Global Scientist Network of 500 MDs and Scientists created the COVID Mass Formation Psychosis. When will Bob Malone and Project Veritas tell the truth about that? Is O’Keefe going to be the only one?
This resume reads like I was a bioagents engineer for 40 years, then I became a hero when COVID was released in January 2020.
Bob Malone’s DARPA “Hero whistleblower” is a DARPA Fellow weaponizing all these bioagents with Obama.
Bob Malone’s Engineered Pathogens - Never has a journalist taken so much opposition and hate for quoting Court Records verbatim.

Jordon Walker’s Boston Consulting Group white-paper that instituted lockdowns and brought back Remdesiver is far more pressing. Do you suppose we can get Malone to retweet what O'Keefe retweeted?

Yes, the people getting a Billion from DARPA and DTRA are the victims. I haven't seen you post Jordon Walker's Boston Consulting Group paper lately if you are the chase for the folks that put in lockdowns.
George Webb - Investigative Journ...   @RealGeorgeWe...   · Mar 6

Bob Malone finally admits he worked for Alchem. He forgets he was the Chief Medical Officer, but we are making progress! The CEO of Alchem, Jim Talton at Alchem, doesn’t forget the BARDA and DoD Contracts!

JAMES TALTON
Alchem Corporation

BIOGRAPHY
James D. Talton, Ph.D., is the President and CEO of Alchem Laboratories Corporation. Prior to joining Alchem, Dr. Talton served as the President and Chief Executive Officer of Nanotherapeutics, Inc. for seventeen years. He also is President of Nanotherapeutics, Inc. President of Science & Engineering

Dr. Talton has developed multiple clinical-stage products as well as NanoFUSE® DBM, a sterile, FDA-cleared (K062459) easy-to-reconstitute bone graft. Leading multiple successful government programs, Dr. Talton has successfully won over $1 billion in contracts with government partners including NIH, DOD, and BARDA. Dr. Talton is an inventor on eleven U.S. patents and has authored several peer-reviewed publications and book chapters involved in drug delivery systems with a primary focus on drug analysis and controlled release formulations, pharmacokinetics and pulmonary drug delivery. Dr. Talton received his B.S. and M.S. in Materials Science & Engineering.

Peter Duke is joined by George Webb to discuss DOMANE software and Robert Malone's participation in the choice of Famotidine to fight Covid-19.

Truth or Consequences in Florida for the next Republican Presidential Candidate. The same for truth for mRNA and Remdesivir.
Will Robert Malone take the DOMANE Challenge? Oh yeah, Robert Redfield, ex-Director of the CDC, admits that the pandemic started in Wuhan in September. I think I have three or four books out there in 2020 and 2021 saying that. The date is going to be September 11th, 2019. And I believe Shuang Sarah Wu’s 2018 Johnson Controls patents point to the Wuhan Lab was “practice” for American hospitals.
Malone also had access to a completed study on Remdesivir and HCQ on Feb 4th, 2020. Why no DOMANE evaluation of HCQ?

Dear Editor,

In December 2019, a novel pneumonia caused by a previously unknown pathogen emerged in Wuhan, a city of 11 million people in central China. The initial cases were linked to exposures in a seafood market in Wuhan.1 As of January 27, 2020, the Chinese authorities reported 2835 confirmed cases in mainland China, including 81 deaths. Additionally, 19 confirmed cases were identified in Hong Kong, Macao and Taiwan, and 39 imported cases were identified in Thailand, Japan, South Korea, United States, Vietnam, Singapore, Nepal, France, Australia and Canada. The pathogen was soon identified as a novel coronavirus (2019-nCoV), which is closely related to seven acute respiratory syndrome CoV (SARS-CoV).2

Currently, there is no specific treatment against the new virus. Therefore, identifying effective antiviral agents to combat the disease is urgently needed.

An efficient approach to drug discovery is to test whether the existing antiviral drugs are
Bob Malone's DOMANE knocked out Hydroxychloroquine and Ivermectin and ushered in Remdesivir and mRNA, and no one even knows it was the most important event in human history, affecting every man, woman, and child in the world.

If DARPA recommended Ivermectin as the treatment against SARS in 2016, how did Bob Malone's DOMANE miss it in 2020?

Ask Bob Malone why he didn’t trial HCQ. The DOMANE question is so important.
George Webb - Investigative Journalist
@RealGeorgeWebb1

DARPA knew since 2016 that Ivermectin was to be used as a first response for SARS like diseases. Yet Bob Malone chose to have a new, untested computer program re-run the trials that had already been verified over a decade and a half. He chose DOMANE, a brand new, untested program.

A New DOMANE for the Pandemic Era

What Stopped Ivermectin?
What Stopped Hydroxychloroquine?
emerging biological threats like COVID-19.

The Streisand DNC Effect Of Bob Malone

rumble.com

Streisand Effect

Peter Duke is joined by George Webb to discuss how Robert Malone is directing more attention to George Webb's reporting.
Here is my response to Bob Malone retweeting 60 Minutes and CNN hit pieces on me. I did a Class Action Lawsuit against the DNC in 2017, and Donie O’Sullivan of CNN and the DNC, have made up stories about me ever since. Steve Kirsch is a top 5 DNC contributor, and Trevor Fitzgibbon is the PR guy for DNC running the Vaccine Litigation Conference in Atlanta this week. Trevor gave me a press pass, then revoked it after I flew in for the conference when I got to the Hilton. I didn’t try to “crash” the event. I left courteously with no fuss. Typical DNC Games. Trevor also did PR also for MoveOn dot Org. Planned Parenthood, and Democratic Senators in Virginia. Malone is also aligned with the DNC. Here we go with yet another DNC smear of me.
Robert Malone was at the Dutch Ministry of Foreign Affairs company AERAS on 9/11 I believe in Rockville, Maryland. He moved up the road to Ft Detrick in Frederick, Maryland after 9/11 to DynPort, a joint venture between Ft Detrick and Porton Down bioagent facility in Wiltshire, England. Maybe that’s why he retweeted the Dutch NATO Armed Diplomatic Security Services Officer story about me? What connections did the NATO DSS Officer’s Commander, the Supreme Allied Commander of NATO, have with AERAS?
Robert Malone was at the Dutch Ministry of Foreign Affairs company AERAS on 9/11 I believe in Rockville, Maryland. What connections did the NATO DSS Officer’s Commander, the Supreme Allied Commander of NATO, have with AERAS?

Just asking a few questions for Bob Malone. Not running trying to undermine anyone. Just reasonable questions.
Bob Malone, in his own words, objected to hydroxychloroquine in the DOMANE Leidos LEAP trials. Malone literally had heartburn with hydroxychloroquine.

The trial, most of which paid Northwell's costs.

The study's draft protocol was aimed only at evaluating famotidine's efficacy, but Trump's "game-changer" antimalarial drug was rapidly becoming the standard of care for hospitalized COVID-19 patients. That led to an additional seven days. The investigator and team had been working closely with personnel employed by both the US DoD and HHS on identifying repurposed drug candidates for COVID-19 and reported the findings to US government officials within focused on the papain-like protease of SARS-CoV-2. This occurred during a Cambridge Mass drug discovery conference immediately after the Biogen super-spreader event (late February 2020). Having developed COVID-19 hydroxychloroquine in the treatment arms (NCT04370262). After enrollment was initiated, changes in standard of care, Good Clinical Practice (GCP) audit irregularities, and failure to enroll adequate numbers of patients
Bob Malone's heartburn over HCQ. Read about Bob Malone's fight not to include HCQ in the DOMANE Leidos trials. The review board insisted on

As long as the old DNC, 60 Minutes, and CNN smears are getting new life with Bob Malone, let’s revisit the real “juice” of our March 2020 reporting – literally and figuratively. We said A vaccinated Armed Diplomatic Security Services courier brought the 6,000 blood samples back to the US. We never said the Wuhan blood samples were the mRNA vaccine or Remdesivir drug trials from Wuhan, but we suspected it. We suspected the US State Department was running a live exercise in China before running it in the US, but we never said we concluded that.

I knew when the Virginia Benassi story with the Wellcome Trust, the WHO, and CEPI broke, they were going to throw all the mud they could. But retweeting a guy who says I did 9/11 with my brother takes the cake! Wow, my questions must be getting under someone’s skin!

Smears are non-productive. Nobody wants to hear them. Let’s get to the roots of Anthrax 9/11 and Corona 9/11.

Here’s who Bob Malone retweeted who accused ME of being a harasser and of being mentally ill. Literally, this Bob Malone favorite guy to retweet goes after a baby!

The Wellcome Trust Feb 25th, 2020 “Doomsday Day” conference call set up the CDC, Nancy Messonier, Doomsday Concall the next day. Robert Malone’s Biogen SuperSpreader event was the day after that.
George Webb - Investigative Journ... @RealGeorgeWe... · Apr 12

You won't believe who ran the Ebola trials with Bob Malone. A pattern is emerging here for shotgun clinical trials, and shotgun approvals. And with close cooperation of Virginia Benassi on the Ebola and Zika Task Forces.
You are with Malone or you are with the Breggins. There is no in between. Malone is trying to destroy the Breggins with a $25M lawsuit and everything they have worked their whole lives for in medicine. I just asked Malone a few questions about DOMANE and ReFRAME at DTRA when he was getting billions in vaccine purchase orders, and I was attacked by a gaggle of Malone's flying monkeys. Stand up for what's right.
Malone seems to forget I have been looking at his DynCorp and DynPort labs since 2016. I didn’t know his name until Summer 2021. Epstein was working the Virus Vaccine Game in Haiti and Africa for DynCorp and DynPort and the US State Dept.

Malone has a new video out I hear!

Yesterday, Bob Malone took hypocrisy to stratospheric heights in the European Parliament. Tomorrow we will bring him back down to earth a bit in Court where there are penalties for lies and defamation.

So goes the I-4 corridor between Orlando and Tampa, so goes the Nation. Our team is going to cover it close up.
Bob Malone praises the suspected Anthrax Bomber in the White House.

Where were all the heroes when the Potomac Group called out "Live Exercise" and Mike Pompeo and Trump confirmed it the next day in a live, White House briefing in March 2020? Everyone is a hero a year and a half later, but no one from the White came forward who knew it was a Live Exercise after March 20, 2020. Where was Malone and Hatfill's voice box in March 2020?

No Mention Of Robert Malone, Jan-Feb DOMANE Study, Michael Callahan HCQ Wuhan Study, Or Rick Bright Jan Remdes
The Breggins appreciate Bob’s $25M lawsuit to destroy their life’s work in medical freedom, so why don’t you go ahead and give them a quick kick in the teeth while their down too.

Not one mention of DOMANE. And that’s the program that he was running that got us run death, severe and mRNA vaccines and knocked down Ivermectin and HCQ

Malone would say I was stalking him. But a funny Homer GIF!

Can someone post a snapshot of how many Twitter followers Dr. Robert Malone has? He has me blocked so I can’t ask him DOMANE questions.

Malone was in charge of DOMANE - arguably the most important process in history - the repurposing of existing, safe therapeutics for COVID rather than forcing emergency authorization of experimental vaccines. No decision has affected more people in the world. We deserve to know everything about that DOMANE process.

Go West!
George Webb joins Peter Duke to discuss a January 2022 article by Diana West about Robert Malone
Bob Malone Leidos Lincoln Lab purchase orders go all the way back to a guy named Steven Hatfill working for SAIC in San Diego. How many people get to plan an Anthrax attack in America? SAIC sure did in 1989 for Iraq War preparations. Oh yeah, Hatfill too, the special Corona Task Force consultant advising Trump during the outbreak of CoronaVirus.

By JEREMIAH MARQUEZ, Associated Press Writer

JOHANNESBURG, South Africa (AP) - One of the men under scrutiny by the FBI’s anthrax investigation is a former U.S. soldier who bragged about ties to a feared counterinsurgency force that fought for the white minority government of Rhodesia.

The FBI has identified Dr. Steven J. Hatfill as one of 30 scientists and researchers with the expertise and opportunity to conduct the anthrax attacks.

The FBI and Postal Service agents wearing protective gloves searched his apartment in Frederick, Md., for the second time last week. A senior U.S. law enforcement official said the agents took some items that have undergone a preliminary review.

Investigators have not classified him as a suspect, only as a "person of interest."

Hatfill, 48, worked until 1999 for Fort Detrick’s Army Medical Research Institute of Infectious Diseases, which is the primary custodian of the virulent Ames strain of anthrax found in last fall's deadly letters.

Hatfill and another scientist, Joseph Soukup, commissioned a study of a hypothetical anthrax attack in February 1999 as employees of defense contractor Science Applications International Corp., said Ben Haddad, spokesman for the San Diego-based company.

Before he worked there, Hatfill spent about 15 years in southern Africa, where he earned a string of academic degrees and told them.

He claimed to have served in the U.S. Army in Vietnam and was discharged after his plane was shot down and he broke his back. However, his military record showed none of that to be true.

He joined the military in 1975, as Vietnam was ending and was discharged in 1978.

In a 1997 resume, Hatfill claimed to be a member of the special forces. But Walter Sokowski, spokesman at Army Special Operations Command at Fort Bragg, said Hatfill attended special forces training in 1976 but failed after a month. "He flunked. He was in training for only about 30 days," Sokowski said.

After completing his military service, Hatfill went to Rhodesia, where many former U.S. soldiers worked as mercenaries for the Selous Scouts, a military force that fought black rebels in an effort to maintain white rule in the southern African nation. Their efforts failed, and the country became black-led Zimbabwe in 1980.

Hatfill later bragged about serving with the Rhodesian Special Air Service and the Selous Scouts. Sources linked to Rhodesian security forces have no memory of him.

"He would talk about running around in the bush and throwing grenades in Zimbabwe and that sort of thing," Rybicki said. He also boasted about shooting grenades into the Zimbabwe offices of the African National Congress, which was fighting to overthrow white rule in South Africa, Rybicki said.

Hatfill graduated from the University of Zimbabwe Medical School in Harare in 1983.

New DNA-Based Vaccine Approach Protects Mice Against Anthrax
COLUMBUS, Ohio - Researchers here have shown that mice injected with fragments of DNA from anthrax bacteria can be immunized...
Looks like the DOMANE Cover Up has begun. New version out now whitewashing DOMANE.

Who is Dr. Darrell Galloway?

George Webb joins Peter Duke to discuss the Director of the DTRA Chemical and Biological Technologies Directorate

rumble.com
I was only trying to do my job as a reporter and ask questions about the most important story of our lifetimes. Robert Malone and DOMANE are a crucial part of that story. Heaping public contempt on me for asking legitimate questions about how billions of dollars in public money was spent is not “stalking”. I have only gone to one public event where Malone was one of many speakers, and I completed a detailed request for a press pass which was granted. That press pass was revoked by Bob Malone himself when I arrived at the event. Characterizing me as a “stalker” trying to “crash the event” heaps public ridicule and scorn upon me for just simply asking questions about the DOMANE Defense Threat Reduction Agency program. This is Defamation, and it casts me as a reporter in the completely False Light of being a “stalker”.

called Discovery of Medical Countermeasures Against Novel Entities (DOMANE) to address novel and emerging threats,” stated Dr. David Hone, Chief Scientist within the Vaccines and Therapeutics Division at DTRA. “Based on previous work, we decided DOMANE would not only focus on FDA-approved drugs but also combination therapeutics, as we believe
Retweeting people who say I murdered my research partner, or retweeting that I was involved hacking into the Federal Bridge with my brother to cause 9/11, or retweeting someone that says I have committed weekly felonies for the last four years with my brother who I haven't talked to in four years, has consequences. Lying about revoking my press pass does too. Saying I am stalking in Virginia when I am in South Africa does too.
Robert Malone has become unhinged from the exposure of his connections to the World Health Organization, CIA Operative Michael Callahan, Ex-CIA Business Partner Darrell Galloway, and disgraced former head of Ft. Detrick biolab, Sina Bavari. Malone has taken to retweeting a New York film maker who has accused George Webb and his brother on “leaving open the Federal Bridge” electronic interchange that allowed 9/11 to happen. This New York film maker actively worked with David Hawkins, a Canadian from Vancouver BC, to have the survivors of the 9/11 tragedy to exact reprisals on Webb and his family. An ex-State Department employee from Norfolk, Virginia came to Webb’s remote Maryland island, then threatened to “Waco, Jonestown, and flamethrower” Webb’s family.

Robert Malone Retweeting this film maker's outrageous claims puts Webb’s family in continual jeopardy. Robert Malone should compensate Webb for the reckless and vicious attack on Webb’s character and the safety of his family.

Think back, did you meet with a Mossad agent and a US Army Ranger about a potential anthrax attack the morning of 9/11? Did you meet with Mossad before the first building was hit? Bob Malone's boss sure did.

open.substack.com/pub/georgewebb...
Bob Malone’s boss’ Mossad Meeting was at 8AM about the Anthrax attack on September 11, 2001. Flight 93 didn’t take off until 8:42 AM. I didn’t crash by Malone’s lab until after 10AM.

The hijackers’ decision to wait an additional 46 minutes to launch their assault meant that the people being held hostage on the flight very quickly found out that suicide attacks had already been made by hijacked airliners on the World Trade Center in New York City and the Pentagon in Arlington County, Virginia, near D.C. By 9:57 a.m., only 29 minutes after the plane had been hijacked, the passengers had made the decision to fight back in an effort to gain control of
We now find out Robert Malone’s boss was meeting with Mossad about Anthrax two hours before Flight 93 crashed by their Windber Lab on 9/11. The meeting with Mossad started before Flight 93 took off. Robert Malone retweeted a nut who accused me of 9/11.

Simple test to see if a journalist is real or fake.

You only need to know Nick Jacobs, Bob Malone’s boss at Windber, at 8AM on Sept 11, was meeting with Mossad about anthrax. if the journalist told you about that, then they are real.

Why Is Bob Malone’s 9/11 Advanced Military Medicine Lab Such A Secret?

1.8K tuned in · May 12 · 51:40
The Congressman that built Bob Malone's Windber Lab into a DoD mega research facility was Dan Ornish, personal physician to Bill Clinton. You may remember Army Colonel Brenda McDaniel was murdered on her front lawn in Ft. Belvoir, Virginia was the nurse to Hillary Clinton.

UT S. Pres. Bill Clinton from 1993 to 2000 and served on the White House Commission on Complementary and Alternative Medicine Policy in 2001-02. In March 1998 he partnered with ConAgra Foods to release a line of 1993, when Ornish was asked by Hillary Clinton to consult with the chefs at The White House, Camp David, and Air Force One. In 2010, after the former President's cardiac bypass grafts became clogged.
Windber started the Walter Reed relationship in 1999. The coming war with Saddam and his Anthrax necessitated this project. There was no known battlefield test or antidote for Anthrax at the time. For a town of 4,200, it fits the Oak Ridge model of a Manhattan Anthrax Project profile. The Joyce Murtha Breast Center started in 2000 as the Anthrax cover I believe. The Breast Center does not the Mothership centers of excellence for surgical specialties with lots of satellite feeders in a major metropolitan area. washingtonpost.com/archive/politi...

Nearly a century after Windber Medical Center opened its doors, the coal company that started the industrial infirmary no longer commands this western Pennsylvania community.

Now it is the hospital -- which has evolved into a state-of-the-art health care facility --

But Jacobs saw potential. He created an affiliation between the facility and a nonprofit consultancy called Planetree, an organization that helps hospitals brainstorm new ways to provide patient-driven care. The hospital made changes, starting with more liberal visiting hours and including in-

In February 1997, Jacobs left his job as chief communications officer for the medical center’s parent, Conemaugh Health System, to head the hospital. At that time, the medical center faced the same obstacles as other small hospitals -- with just 82 beds. Development, Penn State and Georgetown universities, and other institutions.

By most accounts, Jacobs’s most strategic move was seeking the help of Rep. John P. Murtha (D-Pa.). In 2002, Murtha announced that $10 million of a defense appropriations bill would be directed to the center’s Comprehensive Breast Care Project.

You’re talking about something that has the ability to take off and we could not be confident of being able to contain it.

DAVID BELMAN, MICROBIOLOGY PROFESSOR AT STANFORD

The country’s best labs have robust safety programs, said Kenneth Borna, co-chair of a panel of outside lab safety experts convened to examine biolab safety. "You have to ensure that your inventories of select agents are being followed and that you’re being able to notify the CDC and appropriate law enforcement agencies if you discover a missing select agent."

The inspector general’s office, citing regulations stemming from the 2002 bioterrorism law, redacted the names of these labs, as well as all other labs receiving fines, in documents it provided to USA TODAY.

Vials of bioterror bacteria have gone missing. Lab mice infected with deadly viruses have.

Ft Detrick and Ft Belvoir are partners. USAMRID and CBRN

Are we sure I made up the Fc backdoor to cripple your immunity?

The role of IgG Fc receptors in antibody-dependent enhancement

Stylianos Bournazos, Aaron Gupta & Jeffrey V. Ravetch

Nature Reviews Immunology 20, 633–643 (2020) | Cite this article

Abstract

Antibody-dependent enhancement (ADE) in the context of poorly neutralizing and waning immunity have renewed interest in the phenomenon of antibody-dependent enhancement (ADE). This property of antibodies attributes enhanced disease pathogenesis in specific instances of viral infection to the presence of sub-neutralizing titres of antiviral host antibodies. In cases of ADE, rather than contributing to antiviral immunity, pre-existing antibodies facilitate viral entry and subsequent infection of host cells, leading to both increased viral load and more severe disease.

You can't make this up. Alchem is introducing a backdoor to HIV with the Fc pathway. Same as in MERS.

variable S domains may enable an alternative infection pathway via Fc receptor-mediated uptake. This may be a gating event of the immune response dysregulation observed in more severe COVID-19 disease. Prior studies involving vaccine candidates for FCoV5,6 SARS-CoV-17-10 and Middle East Respiratory Syndrome coronavirus (MERS-CoV) 11

He says he got a call on Jan. 4 from a fellow American doctor working in China, Michael Callahan, who told him about the new virus causing severe respiratory illness. Malone then ran the virus's genetic sequence through computer models designed to find already-approved
You won’t believe this Dr Robert Malone - Alchem story in Gainesville, Florida. We take you there.
Watch out for Annie De Groot at EpiVax. Big Malone cohort. He worked with her at Atheric. Dutch NATO is driving this. Or Dutch Intel. Or just call it Kissinger.

How computational immunology changed the face of COVID-19 vaccine development

When Chinese officials posted the sequence of the coronavirus SARS-CoV-2 on 10 January 2020, it triggered a race. This gave immunologists a newfound urgency for addressing the deadly pandemic, as well as a starting point for developing their models, according to Annie De Groot, chief executive officer and founder of the computational immunology company EpiVax in Providence, Rhode Island.
Look for Dr Robert “DARPA” Malone AI generated “novel” bioagents and vaccines to start hitting the market. Looking hard at COVAX and RelCovax.
Callahan is not a public figure. **Malone** is the front man, and he does a lot of social media. Do you think he wants to get caught covering up Callahan in Wuhan in September? He will spill in less than ten days.

---

Dr. Robert **Malone**, were you the Chief Medical Officer at Alchem? Can you list all your DARPA and DTRA contracts there?

---

I think you may want to look into Alchem more and the DARPA and DTRA grants there for synthetic nicotine and **Malone**'s partnership with VaporBar and Leidos.

---

We need to keep watching **Malone**'s Synquest and Alchem.

---

First, let's establish the fact that Dr. Robert **Malone** was the Chief Medical Officer for Alchem when they fizzled the Pepcid study in 2020.

You and Malone are in a neck-and-neck hypocrisy battle. Did you guys yuck it up about fleecing all the Red State widows from Remdesivir deaths at the Atlanta Conference? I notice your "COVID Litigation Tour" is only marketing to MAGA folks.

Founder of PR Firm Shut Down Over Sexual Harassment Allegations Launches Project to Protect Women at Work
By Anna Merlan · Published May 17, 2017 · Comments (31)

Trevor FitzGibbon, one of the founders of FitzGibbon Media, a major progressive PR firm which shut down in December 2015 amidst allegations of sexual harassment and assault against him, has co-launched a new venture aimed at—get this—creating "a culture where women can flourish both in and out of the workplace." With the U.S. Attorney in Washington D.C. declining to press criminal charges against him, FitzGibbon has now declared himself "cleared," and apparently, an appropriate choice to lead this initiative, called Dignity for Our Daughters.

Before it shuttered, FitzGibbon Media represented a powerhouse of progressive and leftist organizations, including MoveOn.org, NARAL, the AFL-CIO, and Wikileaks. The firm also issued statements from Chelsea Manning and helped her tweet from prison. The allegations against Trevor FitzGibbon ranged from sexual harassment to outright sexual assault; in statements to the media, staffers described six separate incidents of sexual harassment against as many women and two allegations of assault.

Robert Malone has become unhinged from the exposure of his connections to the World Health Organization, CIA Operative Michael Callahan, Ex-CIA Business Partner Darrell Galloway, and disgraced former head of Ft. Detrick biolab, Sina Bavari. Malone has taken to retweeting a New York film maker who has accused George Webb and his brother on "leaving open the Federal Bridge" electronic interchange that allowed 9/11 to happen. This New York film maker actively worked with David Hawkins, a Canadian from Vancouver BC, to have the survivors of the 9/11 tragedy to exact reprisals on Webb and his family. An ex-State Department employee from Norfolk, Virginia came to Webb's remote Maryland island, then threatened to "Waco, Jonestown, and flamethrower" Webb's family. Robert Malone Retweeting this film maker's outrageous claims puts Webb's family in continual jeopardy. Robert Malone should compensate Webb for the reckless and vicious attack on Webb's character and the safety of his family.

Ten 9/11 Questions For Robert Malone.
open.substack.com/pub/georgewebb...

George Webb - Investigative Jour... @RealGeorgeW... - May 15
Bob has already been caught covering up his DARPA funding in his vaccine company Inovio. He also covered up DARPA's involvement in DOMANE. Our Potomac Group exposed the DARPA ADEPT bid rigging in March 2020.

Regularly citing the 1918 flu pandemic, the DARPA program manager saw how a novel pathogen, whether from another species or an enemy's lab, could cripple the American military in the field.

"If we need to deploy someone in harm's way and it's a new virus, you don't have to develop both vaccines and antibodies, shortening development timelines from years to days before clinical trials, he thought. It also offered a one-size-fits-all approach; in the future, scientists would need only the genetic code of a virus to create a vaccine.

Dan Wattendorf, do you remember four team of DARPA 3D modeling scientists working in a program called DOMANE to repurpose known, safe drugs to stop CoronaVirus? Do you know Bob Malone? Can you describe his involvement with the project.

No Greenwald is picking up the story! Where was Bob? Why was Bob’s boss meeting with Mossad before Flight 93 took off?

The National Academy panel released its findings, and the FBI (though it was entirely unsurprising for them) put it in an article headlined "Expanding Anthrax Letters": "A review of the Federal work..." concludes that the bureau overstated the scientific link between the letter material and [Ivan] Ivins. The report, commissioned by the FBI, concluded that the genetic findings are "consistent" with the idea that the material could "support" an association. The evidence is inconclusive as stated in the DOJ Investigative Report on the "In F.I.B.I. case against Bruce Ivins" -- noted that the Ivins "remained among some scientists and others who believe it possible that Ives contributed to the evidence against Ivins.”

storyline circulating that the US DoD/DTRA Chem-Bio defense (DOMANE) program actively suppressed the use of Ivermectin as a COVID-19 treatment option, that I was the leader of the DOMANE program, and that I am personally responsible for the advancement and licensure of Remdesivir and the suppression of Ivermectin as a treatment option. The same self-styled “independent journalist” promoting these obvious falsehoods also asserts that I am responsible for 9-11 and the Anthrax attacks.

The following paragraphs are the first time I have directly addressed aspects of my involvement in drug repurposing for COVID involving Ivermectin.
George Webb - Investigative Journal... @RealGeorgeWe... • May 26

Robert Malone first confirms my reporting about his involvement with DOMANE - Jan 2020 to October 2020 - that's not a "hot second" or just being involved in DOMANE "in its infancy". That's the key period that all the drug repurposing studies were done. Secondly, Malone confirms...

_statement of my efforts to provide ways to mitigate the damages caused by SARS-CoV-2, COVID-19 and the COVID-19 response since January of 2020. My work in repurposing drugs for early COVID-19 treatment, which consumed all of 2020 and most of 2021, is not something that I have emphasized in my public activities for three general reasons: First, others have spoken at length about their work, so the topic of drug repurposing has been fairly well covered. Second, much of my work was performed as a consultant/subcontractor under various nondisclosure agreements. Nothing nefarious here, just normal business practices for a small consulting shop. Third, despite what_...

George Webb - Investigative Journal... @RealGeorgeWe... • May 26

Malone actually testified here in Orlando in Nov 2021 that he was still involved with DOMANE at that time. He didn't know that Remdesivir was being paired as the Standard of Care drug in the DOMANE trials? Malone bragged to Science Magazine he got the call from Kadlec at ASPR in...

Robert W Malone, MD @RWMaloneMD

@GenExerMama I have no idea of what you are speaking about. My involvement with DOMANE was early and superficial.

Was Nicole Wattendorf (wife of Dan Wattendorf) at Uniformed Services University of the Health Sciences at the same time as Robert Malone?
linkedin.com/in/nicole-watt...
The timeworn walls of the Dressler Center could talk, an Early American house, located on the corner of avenues, and were instrumental in the shaping of Somerset. Griff Joseph Imhoff built it on land originally owned by William Peter Ankney. [At the time of his death in 1840, he was the largest landowner in southwest PA]. They also refer to the house as the Underground Railroad, and would divulge the owner hide slaves in the cellar. "Gold and art during the Civil War"?

The house became the home for the first non-profit, fully sanctioned organization in Pennsylvania. The idea was the beginning of something that would grow because a group of culturally minded people believed that Somerset wanted, needed and would support an organization that would encourage the arts. After several meetings - and a lot of hard work - this group incorporated under the name of Laurel Highlands Dressler, a widow who had previously expressed a desire for her home as a center for the arts as a memorial tribute to her husband, Philip d'hec Dressler. The gift of the house was a windfall that allowed the organization to open its doors in 1973.

We lost our Constitution on 9/11. I am just asking questions of the people who were at Ft. Detrick at the time. We couldn’t have declared Continuity of Government without Anthrax being present on one of the airplanes. We can’t even answer if the Windber paramedics were tested after they all thought they would be dead by the end of the week after they went to the Flight 93 crash site. I am tired of the Messiah complexes. It is time for the truth.
