Congratulations!

You have chosen to hold your wedding at one of Northern Arizona's most beautiful and intimately enchanting venues! The Arboretum's natural beauty speaks for itself and is a favorite spot for both local couples and destination weddings.

While the rustic charm of the property needs little adornment, there is a good deal of production that needs to take place to make it the perfect space for your world class wedding. In the following pages you will find plenty of information and products that are available for rent to help ensure that you and your guests will have all of the necessary amenities while enjoying the Arboretum's simple elegance.

The Reception Tent

Regardless of what time of year your wedding will take place, an event tent is a necessary addition to ensure that all of the priceless details and personal touches you have worked so hard on are protected from the elements. Whether there is a chance of a sudden monsoon storm, or simply the relentless Arizona sunshine, a 40' x 60' canopy, at a minimum, is required for all receptions that are held in the Arboretum's Ponderosa Pavilion.

The good news is that you can rest assured your precious plans and investment will be sheltered. Also, there is no need to seek out a supplier for this massive equipment, because you can source the ideal solution right through your Wedding Coordinator. And unlike other providers, premium clear sidewalls are included in the price that you pay, and will be available at a moment's notice, should weather or temperature necessitate.

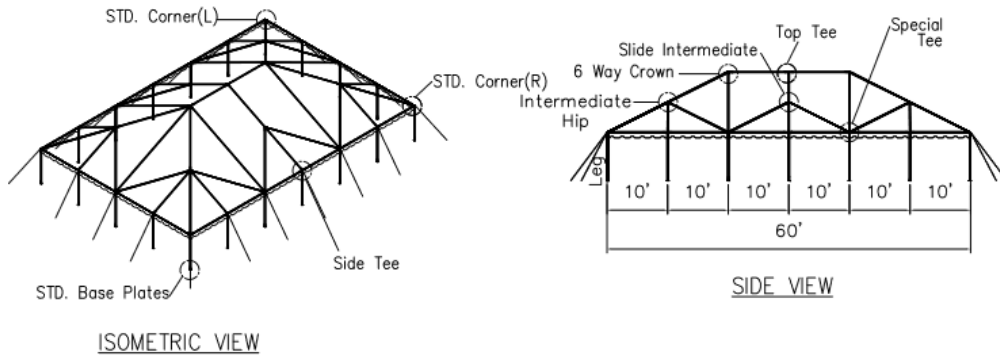

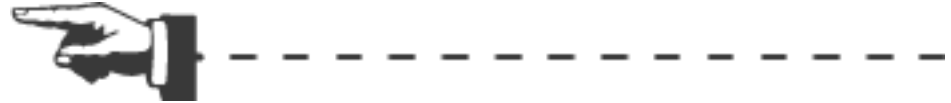

Premium clear sidewalls help to keep heat inside the tent, and cold, wind and rain out. If they are not needed, they can be left rolled up and out of sight.

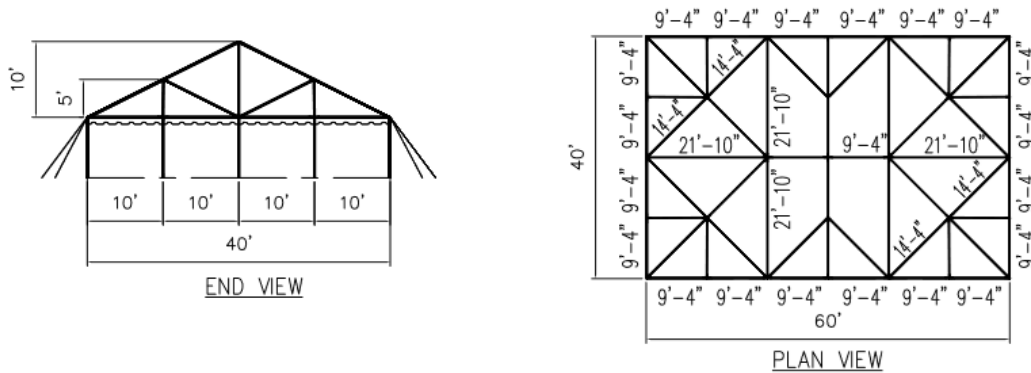

The tent's inner frame provides the perfect support for endless lighting and décor options.

40' x 60' STANDARD FRAME TENT

The standard 40 x 60 canopy, that is required at minimum, will comfortably shelter a party of up to 150 guests, Please consult with your wedding coordinator for floor plan advice, especially for larger parties.

40 x 60 Canopy

\$1750.00

With optional premium clear sidewalls.

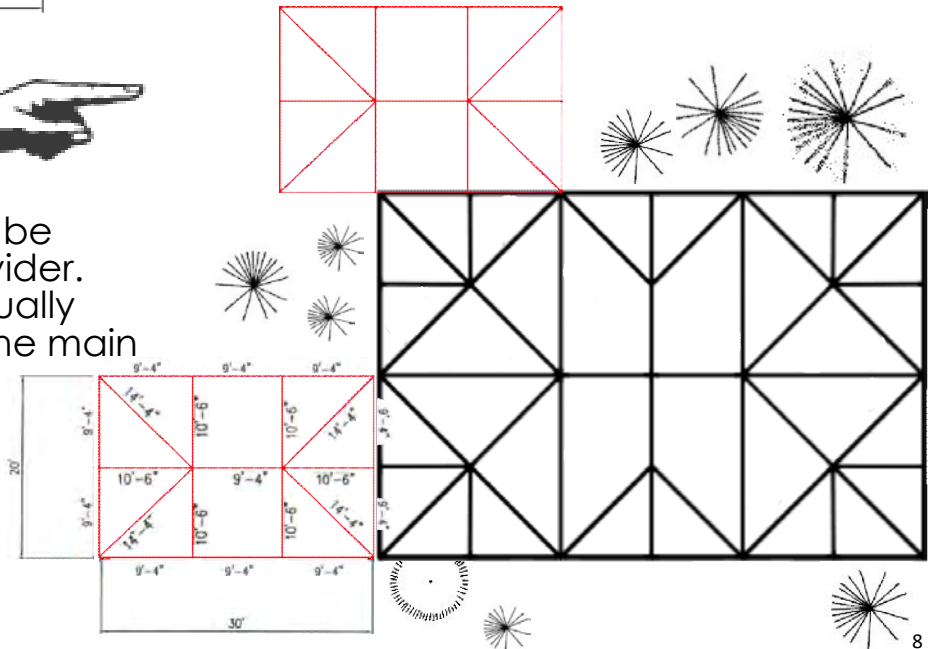

INCLUDED

PRICE INCLUDES INSTALLATION.

For parties between 150-200, additional canopies may be needed, and can be sourced from another rental provider. Prices vary, and may be subject to change, but are usually approximately **\$700-\$1000**, in addition to the price of the main 40 x 60 tent.

Diagram to the right illustrates potential placement of additional 20 x 30 canopies.

Climate Control

You probably chose Flagstaff for your wedding for many reasons, one of which might be the beautiful weather that is almost certain. While crossing your fingers and hoping for sunshine just might work, having a back up plan is our rule of thumb. Spring and Fall are likely to bring chilly winds or showers, and the summer monsoon rains are a daily possibility between July and September. Even in June, our most predictably glorious weather month, the temperatures might dip below comfort level after dark. Luckily, we have options that can be added nearly at the last minute to ensure that nothing will put a damper on your wedding celebration!

***41,000 BTU Stainless Steel Propane Patio Heater**

\$95.00 each

Propane Included.

**These heaters cannot be used underneath the canopy, to avoid fire hazard. They can be placed just outside the perimeter of the canopy where guests can go to enjoy the warmth they provide. Heats approximately 115 square feet surrounding the heater.*

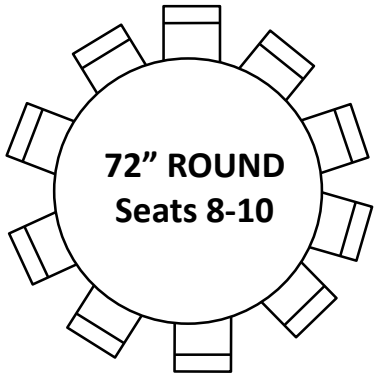

170,000 BTU Forced Air Propane Heater (not pictured)

\$200.00

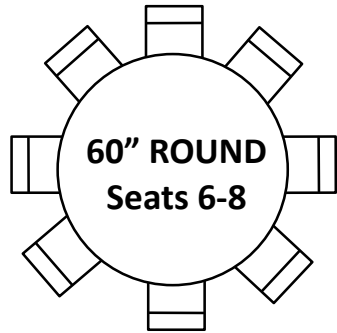

Propane Included.

The best heating bang for your buck! This is a forced air unit that sits outside of your sidewalled canopy (sidewalls must be down for this type of heater to do its job). A specially designed vent delivers warm air to the inside, and will easily heat the entire tent, even if additional 20' x 30' tents are added.

Dance Floor

Like the majority of the grounds at the Arboretum, the Ponderosa Pavilion's natural ground cover is comprised of wood chip mulch and pine needles, which can easily become splinters in the feet of wedding shoe-clad dancers.

An installed dance floor will be a welcome addition if you are planning for dancing to be a major component of your reception's festivities.

What size dance floor will I need?

Up to 100 people	12 x 12	\$300
100 -150 people	16 x 16	\$450
150 - 200 people	20 x 20*	\$625

***Note:** a 20 x 20 dance floor would likely need to be located outside the main tent for a party of 150 or more.

Sound Support

Hiring a professional DJ or musician is a fool proof way to keep the party rocking. However, if you are up for the do-it-yourself challenge, make sure your playlists will have plenty of amplification with our easy to use equipment.

Remember that you will still need to provide all of your own music on compatible devices, as well as a person to man the equipment. This is especially crucial for ceremonies that have multiple elements that require microphones. You may need to add additional sound support services to your Coordination contract to ensure that an experienced person is monitoring the equipment. Please consult with your Coordinator as you are developing your DIY sound plan.

BEST FOR CEREMONIES

****If you have already rented Wired Mics for your ceremony, no additional rental is needed for Reception.***

Lighting Packages

This is arguably one of the most important elements of the entire wedding. Lighting can make (or break) a party's ambiance, and should be one of the first things in place when designing your wedding's overall décor.

As you've learned, The Arboretum is an extremely sensitive property. Installing the lighting in the appropriate way will take time and expertise. It is required that the Holleday Productions team provide your lighting package. We will gladly do the heavy lifting for you; your lighting wish is our command!

There are limitless ways to make sure your wedding is one that your guests will never forget. The artistry and imagination that goes into unique and elaborate lighting installations is one of the most rewarding and enjoyable parts of the job for us. This is where the magic really happens! The following pages contain just a few fun examples.

Above is the trail to the restroom building magically lit with Warm White LED Twinkle Lights.

This is a mandatory element of your lighting package, to ensure convenience and safety for your guests as they navigate to the restrooms after dark.

Décor & Floral

Just like lighting, the decor and floral elements that you choose for your wedding are a huge part of setting your event apart from all the others. Here is where you can get highly personal and customized to make sure that the items you use reflect your style and personality as a couple.

You may have your heart set on sourcing and shopping for these elements yourself, or even crafting the perfect DIY centerpieces. If so, we heartily support you, and will still happily set everything up for you on the big day!

However, if the idea of renting those items appeals to you, please browse the final pages of this catalog to see all of the ways that we can help decorate every facet of your perfect day.

NOTE: In general, all floral elements and candles will be an additional rental fee.
