You're Getting Married

"Danielle is absolutely incredible. After the wedding and reception, I had a number of people, including my wife's parents, talk about how she was focused on getting every possible shot and didn't seem to take a break for hours. I haven't received her finished photos yet (too soon) but I got my headshots done with her last year and they turned out amazing so I'm confident that they will be perfect. Seriously, don't even think about it, just book her! And do it early - it's likely she'll be unavailable if you don't!"

Quick Tips

This is your special day! Every detail you decide on makes it so unique, just like *your love*. Every one of our couples is so unique, so your photos should be too! Your photos should be yours to look back on and remember all the fun, craziness, and beauty that was your wedding.

These are your forever memories!

BEFORE YOU BOOK

- **Tip #1:** Have an idea of what you're looking for in a photographer. What style do you love? What does your budget look like? Will you want digital images? What about an engagement session?
- **Tip #2:** Shop for best fit. Get a good idea of what different photographers offer. While price is always a consideration, don't shop by price. Shop by who best fits what you are looking for. Remember, these are your forever memories -- you want to love them!
- **Tip #3:** Meet for coffee! Meet the photographers you are most interested in and trust your gut. You'll know if you click or if you don't. You'll want to have a great working relationship with your photographer since they will be capturing the happiest moments of the day!
- **Tip #4:** Ask questions. You know what you are looking for, and if you're unsure about something, just ask! Believe me, photographers want to know what you're looking for, what you like, and what you don't so we can make sure you will love your photos!

A photograph of a man and a woman embracing outdoors. The man is on the left, wearing a dark suit jacket, a light green shirt, and a dark tie. He has grey hair and a mustache. The woman is on the right, wearing a white lace wedding dress. She has blonde hair and is smiling broadly. They are both looking towards each other. The background is a soft-focus view of green trees and foliage, with warm sunlight filtering through, creating a bokeh effect. A semi-transparent grey box is overlaid on the lower half of the image, containing a testimonial in white text.

“Danielle exceeded every expectation I had for a wedding photographer! Our ceremony was outside on a VERY hot day. Not only did Danielle not complain about the heat, but she worked with the sun to capture all of the greatest moments of our ceremony. Some of the moments she captured were the emotions people felt while my Husband and I were saying our vows; those moments are so precious and she captured all of them. I would highly recommend Danielle for all of your photography needs!”

Your Experience

DESIGNING YOUR WEDDING

We start designing your Wedding or Elopement by completing the Wedding Photography Questionnaire.

- Once we receive your questionnaire, we'll follow-up with any questions, recommendations, or any other info that might help you as you prepare for your wedding.
- Timeline - As we get closer to your wedding date, we will discuss timeline details. If you are working with an Event planner, we will all make sure we are on the same page.
- Family Portraits - I recommend to plan at least an hour for family, bridal party, and couple's portraits. This can be done before the ceremony if you want to do a first look, or immediately following the ceremony if you will be seeing each other for the first time down the aisle. You won't want to rush these photos.
- First look or see each other the first time down the aisle? This is 100% up to you. This will be considered as we build your timeline -- Let me assure you, there is no wrong choice!

WEDDING DAY

- First and foremost, take a breath, relax, and enjoy!
- We always arrive early to scope out the venue. This is not time you pay for, this is so we can be best prepared and ready to start. The Underexposed® team of photographers are professional and incredible! And if you want any specific photos, just ask!
