

Clarity Omnibus Survey

May 2023

clarity+campaign(labs)

Methodology

The May 2023 Clarity Omnibus Survey was conducted from May 8 - 14, 2023 via national online public opinion panels and 1,122 respondents were matched to the voter file. The margin of error of this poll is +/- 2.92% at a 95% confidence interval.

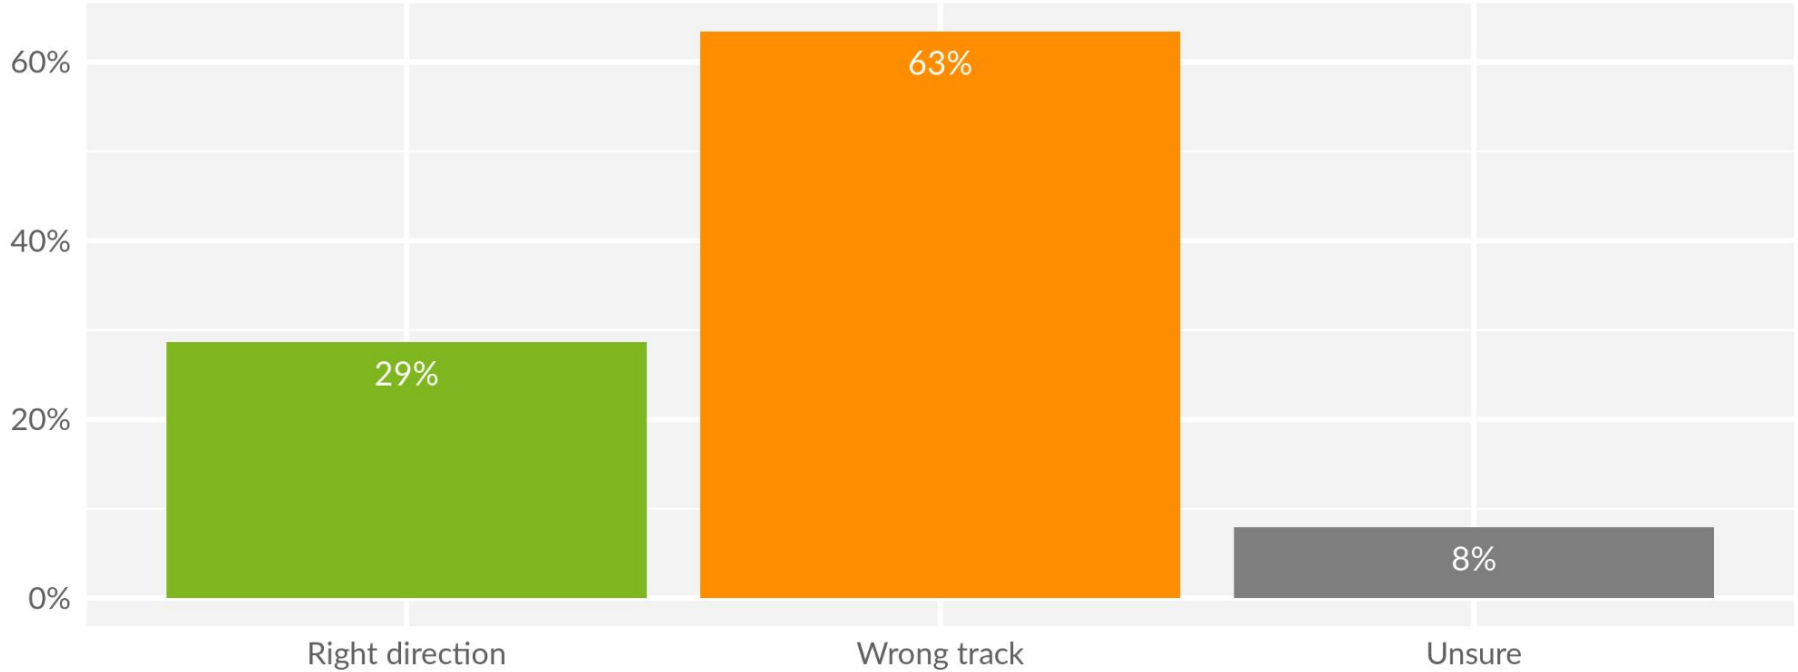

Attention checks were employed in the survey and respondents who failed attention check questions were removed from the sample.

Responses are weighted to a national universe of likely voters using factors including age, gender, race, education, and geography.

This document does not include results from questions that are confidential for individual clients.

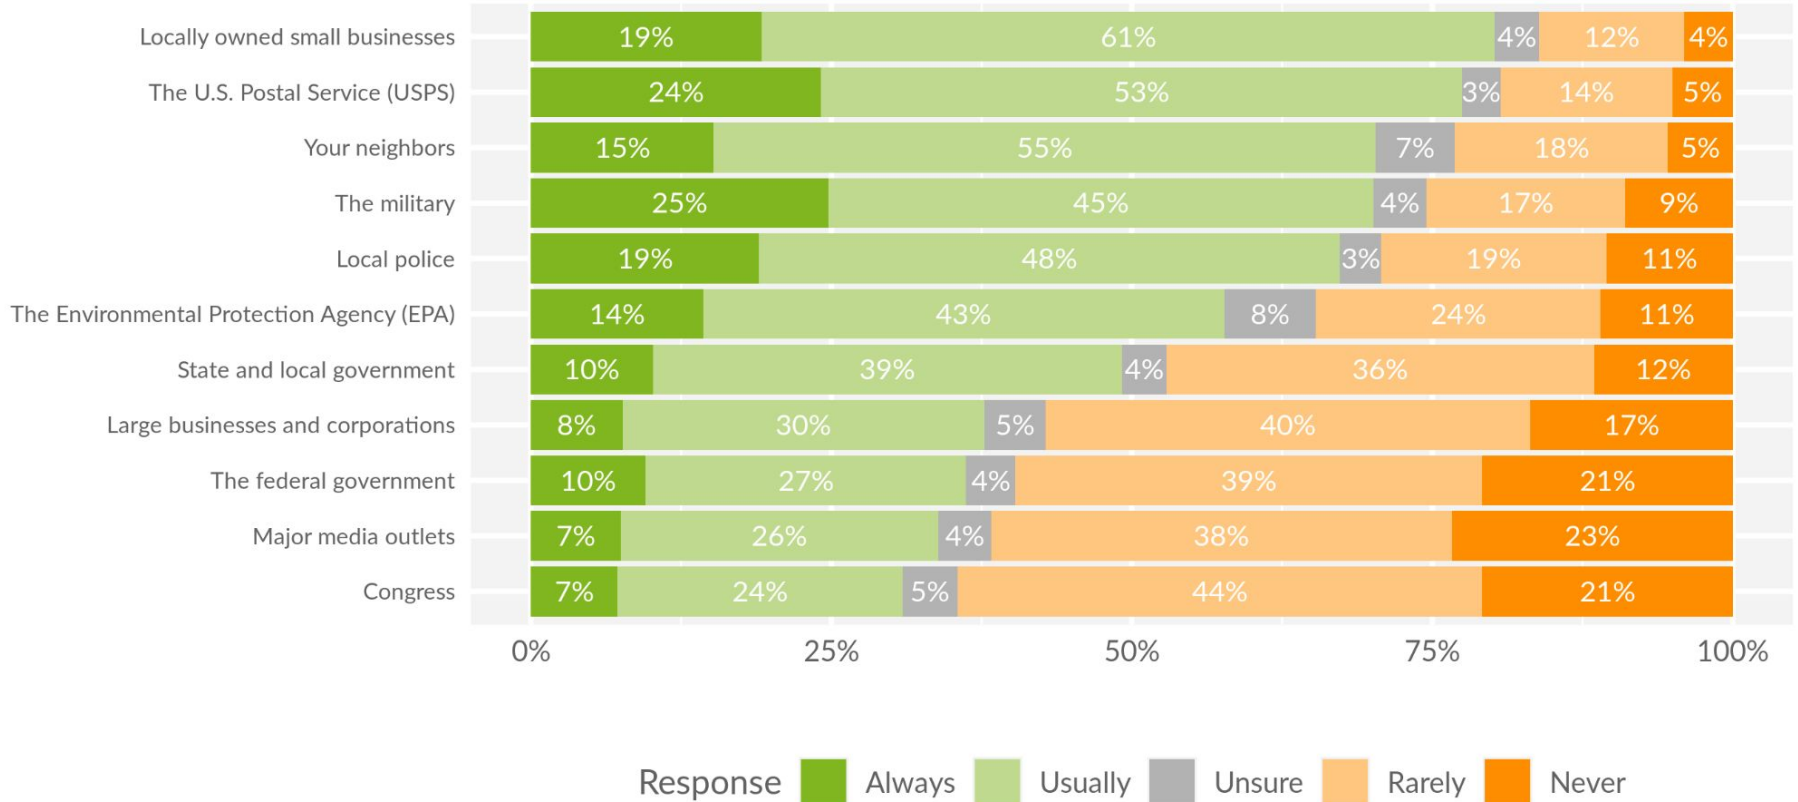

Warm-up

Do you think things in the United States are going in the right direction or do you think we're on the wrong track?

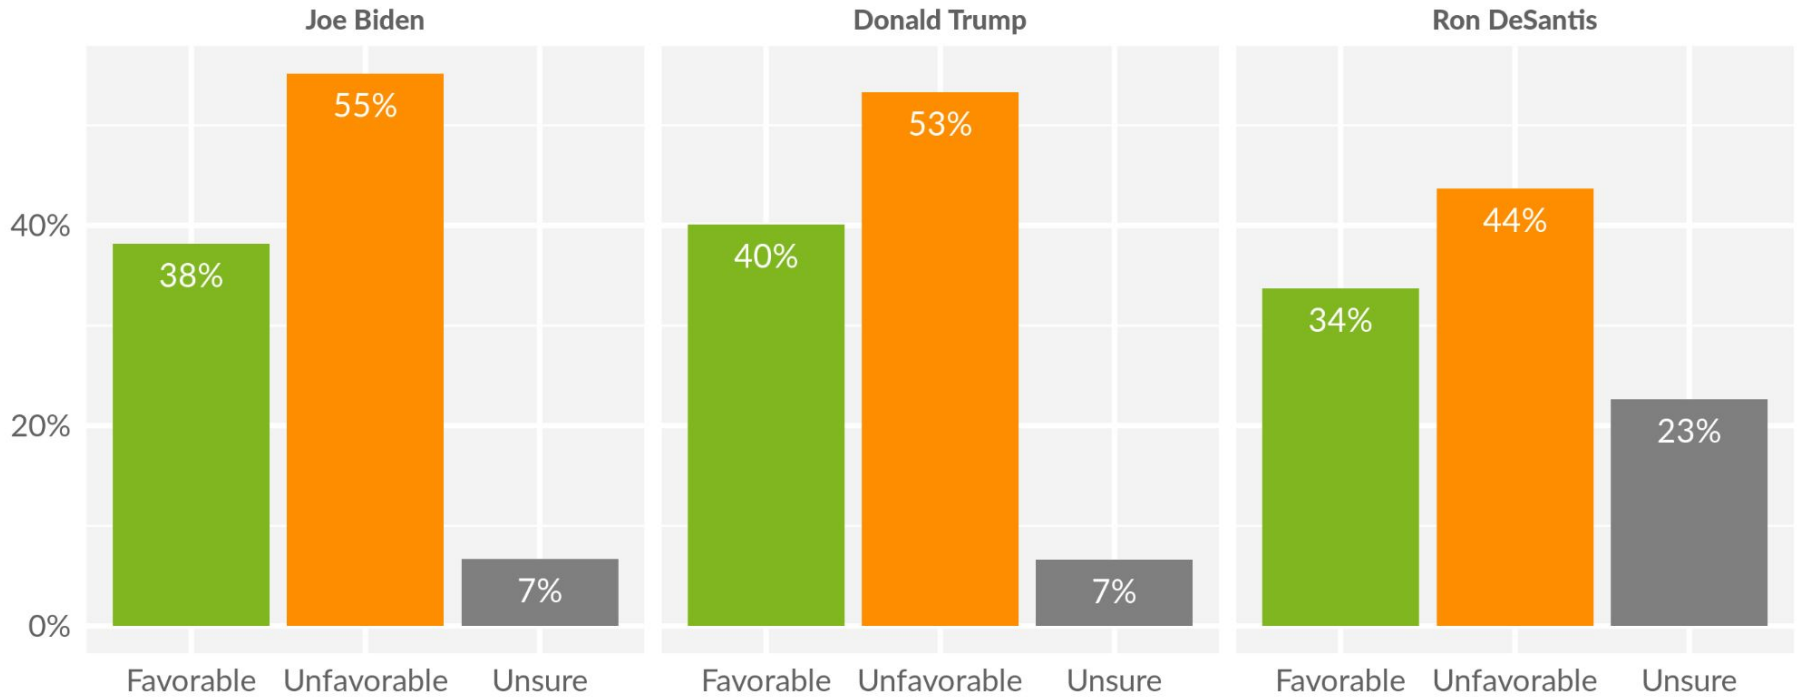

Political Views and Attitudes

Generally speaking, how much do you trust these institutions or groups to act in the best interest of people like you?
