ANNE REYNOLDS, EXECUTIVE DIRECTOR

Since 2014, Anne Reynolds has served as the Executive Director of the Alliance for Clean Energy New York. In that role, she has successfully advocated for New York’s 70% Clean Energy Standard and a NYSERDA procurement program to support that mandate, the use of Index REC contracts, the development of an offshore wind program, reform of the permitting process, an improved interconnection process at the NYISO, and a renewed commitment to transmission planning. ACE NY has grown to include the New York Offshore Wind Alliance, the Friends of Upstate NY Wind Power, a strong advocacy presence at the NYISO, an active energy efficiency program, and a growing project in transportation electrification.

Prior to ACE, Ms. Reynolds served as a Deputy Commissioner at the New York State Department of Environmental Conservation (DEC) in the role of chief financial and operations officer, and as Assistant Commissioner for Policy and Planning, which included legislative affairs. Before DEC, she covered air and energy issues for Environmental Advocates of New York; worked at the Tellus Institute for Energy and Environmental Strategies in Boston, and at the U.S. Environmental Protection Agency Region II in NYC. Anne holds a Master of Environmental Studies from Yale University and a BS in Biology and Environmental Studies from Tufts University.

###

About the Alliance for Clean Energy New York: The Alliance for Clean Energy New York (ACE NY) is a broad coalition dedicated to promoting clean energy, energy efficiency, a healthy environment, and a strong economy for the Empire State, and is New York’s premier advocate for the rapid adoption of renewable energy and energy efficiency technologies.
