The Alliance for Clean Energy New York Heads to the NYS Fair
ACE NY and partner organizations will host “Clean Energy Corner”

SYRACUSE, N.Y., Aug. 23, 2023 — ACE NY is excited to invite members of the public to visit the “Clean Energy Corner” during the 13-day run of the Great New York State Fair in Syracuse.

The booth will be in the Center of Progress Building near the magnificent sand sculpture and will host games and activities for children and adults, all with the mission to inform New Yorkers about the renewable energy transition now underway in New York state.

ACE NY has partnered with five other nonprofits to help spread this important message. These groups include Alliance for a Green Economy (AGREE), Climate Change Awareness and Action (CCAA), New Yorkers for Clean Power (NYCP), the New York League of Conservation Voters Education Fund (NYLCVEF), and United Solar Energy Supporters (USES USA). Information on all participating organizations can be found [here](#).

There will be opportunities for those visiting the booth to sign up to receive information from all participating organizations, as well as informally vote on what renewable technology they are more interested in learning more about. The booth will also feature a virtual reality tour of a solar farm.

“On behalf of the Clean Energy Corner organizers, we are excited to share the important message of renewable energy with the close to 900,000 people expected to visit the fair. We encourage everyone at the fair to stop by and check out our interactive booth,” said Anne Reynolds, executive director of the Alliance for Clean Energy New York.

The Center of Progress Building is open from 10 a.m. to 10 p.m. each day of the fair.
