

# Grade 6 and 7 Visual Glossary

Use this glossary prior to the CCNL presentation in order to help students understand key terms that will be used. If completing a follow up task, use it to help with use of language, word recognition and sentence construction!

Complete the [WORD SEARCH](#), and the [KAHOOT](#), then explore your student understanding. Print the pictures of the challenging terms, or print all the terms on a wall to create a climate change word wall for your classroom!

# Grade 6 and 7 Visual Glossary

## Terms

<b>Climate</b>	<b>Climate Change</b>	<b>Ecosystems</b>
<b>Adaptation</b>	<b>Pollution</b>	<b>Greenhouse Gas</b>
<b>Atmosphere</b>	<b>Fossil Fuel</b>	<b>Unsustainable</b>
<b>Sustainability</b>	<b>Renewable</b>	<b>Non Renewable</b>
<b>Consumption</b>	<b>Climate Discrimination</b>	<b>Food Insecurity</b>
<b>IPCC</b>	<b>UN</b>	<b>Mitigation</b>

# Climate

Expected, long term weather patterns.

# Climate Change

Changes in expected, long term weather patterns.

# Ecosystems

The community of living and nonliving things in a specific place.

# Adaptation

Something you change, or do, to help you survive in an environment.

# Pollution

## Harmful waste.

# Greenhouse Gas

A gas that traps heat and warms the earth.

# Atmosphere

The layers of gasses that surround the earth.

# Fossil Fuel

A fuel made from the breakdown of plants and animals.

# Unsustainable

Something you can't keep doing at the same rate, or at all.

# Sustainability

Interaction with the environment that doesn't negatively affect future generations.

# Renewable

**A fuel that is not depleted when it is used.**

# Non - Renewable

Resources that can't be replaced after they are used.

**Consumption**  
Using, buying or  
eating something.

# Climate Discrimination

When the impacts of climate change affect those that contribute little to the problem.

# Food Insecurity

**A lack of affordable and nutritious food.**

**IPCC**

**The Intergovernmental Panel On Climate Change - the group of people that assess the science related to climate change.**

**ipcc**

INTERGOVERNMENTAL PANEL ON  
climate change

# The United Nations (UN)

The United Nations - a group of countries working together to prevent and end war, and improve social conditions for people.

# Mitigation

To make a problem less harsh, or less severe.
