## 01 INTRODUCTION

# HELLO!

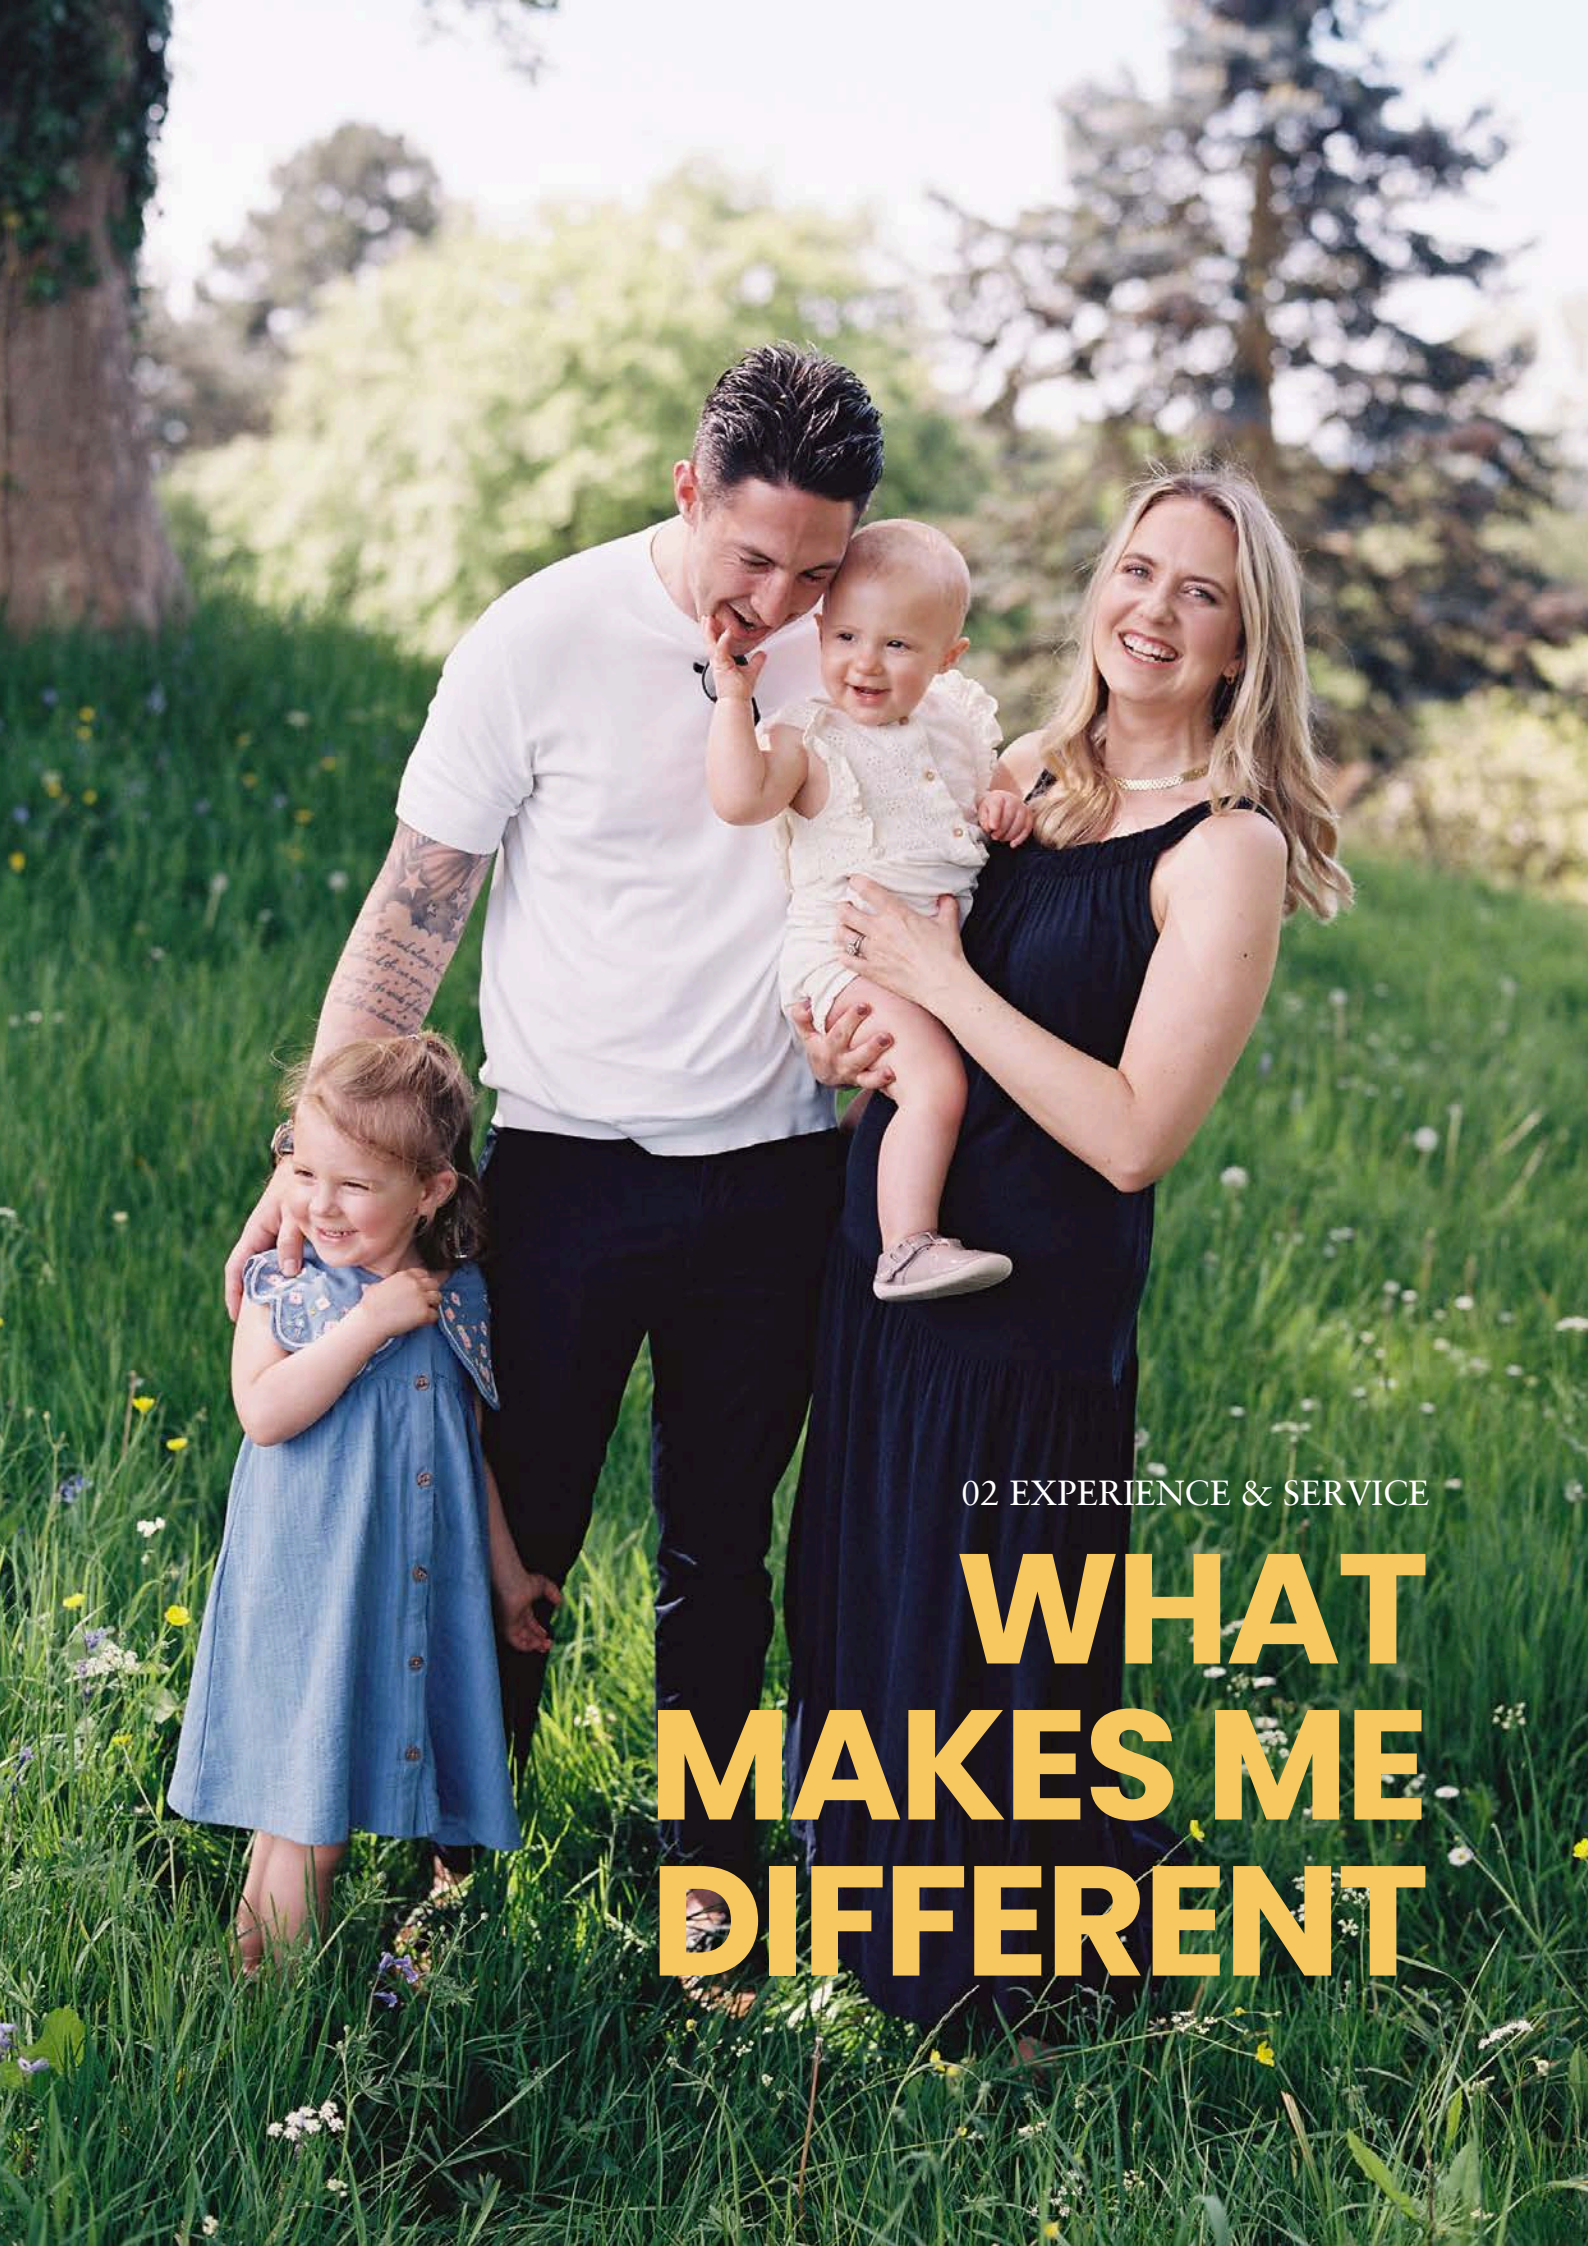

I'm Victoria and I've been taking photographs professionally since 2009. I have a very unsophisticated addiction to mochas and the garden is my happy place. Having bounced around a bit, I now live 10 minutes away from where I grew up in a Cheshire village with my partner and our two cheeky little girls.

Fifteen years ago a friend asked me to take pictures of her wedding and my journey into the world of photography and business began.

Now with a wealth of photographic experience under my belt **I'm committed to helping you celebrate and connect with those you love.** Whatever family means to you, it is worth celebrating and what better way to do that than with photographs which will be treasured for years to come?

02 EXPERIENCE & SERVICE

# WHAT MAKES ME DIFFERENT

## EXPERIENCE & SERVICE

You may have noticed there are hundreds if not thousands of portrait photographers out there to choose from!

But I can tell you with confidence that none of them will do quite what I do.

**I shoot exclusively on timeless, grainy film that turns every day moments into cinematic works of art.**

Whether it's a maternity session, newborn or family portraits I approach every shoot with the aim of capturing a mixture of posed and candid shots; offering guidance when needed and encouraging you to play together too. I'll be by your side every step of the way to guide you through different poses and activities to keep the session relaxed and fun!

I'll deliver a collection of natural and honest photographs which best capture you and your family just as you are in this moment.

When your photographs are ready we'll book in your reveal appointment where you get to sink into the sofa with a cuppa and see your portraits for the first time... love this part!

We'll then work together to turn those images into heirloom printed works of art which make your house feel like home.

### 03 INVESTMENT GUIDE

These days everyone is a photographer; we all use our phones to take photos of our favourite people on a daily basis. It's fast, it's convenient and instantly sharable. But how often do we mindfully compose an image, take the time to print it, frame it and hang it on our wall?

I'd argue not often enough. This process is reserved only for the most treasured of pictures, which become much more than snapshots. They become keepsakes. These are the photographs I'll create for you on medium format film.

A close-up photograph of a young couple. The woman, on the left, has long brown hair and is smiling warmly at the camera. The man, on the right, has dark hair and is leaning his head against hers, looking down. They are both wearing dark blue clothing. The background is a soft-focus green, suggesting an outdoor setting.

## PRINTED ARTWORK

When you print a photograph of the people you love most on beautiful fine art paper, have it professionally framed and hang it in pride of place in your home, that image will bring joy to your life every day.

When you gather a collection of favourite photographs together and arrange them in a handcrafted leather-bound album you create a photographic legacy which celebrates this chapter in your family's story.

During your reveal session I'll show you examples of custom printed wall art and heirloom albums to help you decide how you'd like to display your family portraits.

### Contemporary Wall Art and Framing

I offer a variety of beautiful printed options for your wall in a wide range of sizes. Choose from modern photo block panels, contemporary aluminium box frames or bespoke professional framing to suit your interior style.

Prices range from £89.95 to £1099.95 and you will automatically receive a high resolution digital file for every image you order in print.

Professionally Printed Folios and individual prints are also available.
