Don't Slow Down, We're Almost There!

Welcome!

The cattle market is moving in our favor . By mid-summer we should be in record highs.

If Mother Nature follows suit there will be a shortage of mother cows that we have never seen in history.

The key is to have something to sell.

In a nutshell, this industry reminds me of a quote by Rocky Balboa, "It's not about how hard you can hit, it's about how hard you get hit and keep moving forward!"

On a local note - with the start-up of Eastern Montana Meats, the demand for northern cattle and local feeding is high.

I am confident in our offering and invite your closest scrutiny of our whole operation. I know it is a busy time of the year, and I will do all I can to assist our buyers on feeding and shipping arrangements - whatever will work for you. If you cannot be here we can help with your purchases. Satisfaction guaranteed, or you do not own them, no hassles.

Representatives of Superior Livestock, Sidney Livestock, Sitting Bull Livestock and Prewitt and Company will be here to visit with you and assist you in marketing of you Charolais and Angus calves.

Thank you for coming and if you have any questions, feel free to call me or any of the sale personnel.

Howard Rambur

A special THANKS to a great crew and family that makes this possible every year.

Terminal Sire Index (TSI)

The AICA Terminal Sire Index (TSI) is a formal method of combining Expected Progeny Differences (BWT, WWT, YWT, REA, HCW, MARB and FAT) into one single value on which to base selection decisions. The TSI uses estimates of the genetic relationships between traits with an economic default value based on three year rolling USDA data.

The TSI represents a dollar index per terminal progeny produced for a bull in the AICA database, ranking them for profit potential. This dollar index is to be interpreted much like single trait EPD. For example, if Sire A's index is \$191.66 and Sire B's index is \$200.00, then we would expect Sire B's offspring to average \$8.34 more net return (\$200 minus \$191.66) than Sire.

**NOTE: We will be retaining
1/3 semen interest on ALL BULLS.**

Commercial buyers, don't be scared away by this. Commercial buyers are encouraged to purchase these bulls at the price they feel the bull is worth to them. You own full possession of the bull, all salvage value and control his destiny. Our intention is to collect semen from the bull at some point in time at the buyer's convenience and only as an option. Also, in the case of semen sales, this 1/3 semen interest gives us a continuing business involvement and also provides extra income to the buyer.
